

CROP DAMAGE EXCEEDING TOLL OF 1934 EXPECTED AS 14TH DAY OF DROUGHT PASSES WITHOUT RELIEF

TY WATER PIPES EMPTIED FOR HOUR BURSTING MAIN

Fire Northeast Area Left Without Water When 14th Street Pipe Breaks, Wrecking Paving, Flooding Section.

ORMAL PRESSURE QUICKLY RESTORED

Back Where Break Occurred To Be Watered Until Saturday, Zode Smith Expects.

Atlanta's water supply at normal pressure was restored late yesterday after a 36-inch main on Fourth street near Peachtree broke, flooding the street, ripping pavement for more than 50 feet and sending up a geyser 15 feet into air.

F. Zode Smith, general manager, and William Rapp, in charge of construction and repairs, personally supervised the closing of valves to reroute the water into the northeast section and much of the business sections of Atlanta. They then announced that the problem had been accomplished.

Smith estimated that Fourteenth street, between Spring and Williams streets, will be without water probably until Saturday. Crews will work day and night, however, until the break has been repaired and that pressure restored to the system.

Hospitals Affected. A large main comes into Fourth street from the Hemphill pump station and goes into West Peachtree street, from Sixth to Ninth avenue, and thence to Gilmer street.

Lawford Long, Georgia Baptist and St. Joseph's hospitals, were affected, as was a spigot in the entire northeastern part of the city. The break occurred shortly after 1 o'clock the entire section was without water. Smith was in the city hall when the break occurred and hurried to the scene, where he and a crew of workmen were on the job.

Telephone service at the city hall paralyzed while frantic Atlantans tried to learn the trouble, and it was not until about 5 p.m. that the water was turned on.

Smith, who was in the city hall, rushed to the city hall to catch the break.

Geyser From Broken Main Rips Paving to Fragments

When a 36-inch water main broke yesterday on Fourteenth street near Spring, it ripped open a combination concrete and asphalt street for more than 50 feet, as is shown in the above picture. Water supply was practically paralyzed for a large portion of the business district and for the entire northeastern residential section. The break caused a geyser which threw huge sections of the pavement several feet into the air. Staff photo by Kenneth Rogers.

SENATOR MURPHY KILLED IN CRASH

Iowan's Wife, Two Others Injured in Wisconsin Automobile Accident.

CHIPPewa FALLS, Wis., July 16.—(AP)—A careening automobile, overturning in a ditch after a tire blowout, carried United States Senator Louis R. Murphy, of Iowa, to his death today.

Homebound from a north woods vacation, the 61-year-old senator, a vigorous protagonist on New Deal farm aid plans, was injured fatally near Bloomer, north of here, on his nineteenth wedding anniversary. He was crushed against the steering wheel of the car he was driving, and died in an ambulance a block from a hospital here.

Mrs. Murphy and her companions, Mrs. and Mrs. E. W. Woodward, of Dubuque, where the Murphys also lived, were under treatment at the hospital tonight for severe shock.

Doctors said they were concerned over the condition of Woodward, publisher of the Dubuque Telegraph-Herald, because of his heart.

Murphy's death was the sixth of his family.

Mildred Bolton Guilty, Is Sentenced to Death

CHICAGO, July 16.—(AP)—Mildred Bolton, stoical slayer of her insurance broker husband, Joseph, was convicted of murder by a criminal court jury today and her punishment was fixed as death in the electric chair.

The jury—composed of 11 married men and one widower—deliberated less than an hour. The state had demanded electrocution, terming Bolton's slaying "a vicious and contemptible crime."

Mrs. Bolton, 46, pudgy and henna-haired, admitted she shot her husband to death in his Loop office June 15, but claimed she was driven to it by Bolton's alleged infidelities over a period of years.

James Offers to Bare Self to Two Rattlers

LOS ANGELES, July 16.—(AP)—Robert S. James, much-married barber, offered today at his murder trial to expose himself to two rattlers in an effort to disprove Charles Hope's weird story of the part they played in the death of James' wife, Mary Busch James.

Superior Judge Charles W. Fricke promptly turned down the offer, extended by R. E. Parsons, James' attorney.

"This courtroom is not a three-ring circus," the judge said. "There's been enough sensationalism already."

TOWNSEND, SMITH SUPPORT LEMKE

Duo Join Hands With Radio Priest Who Terms Roosevelt a 'Betrayer'

CLEVELAND, July 16.—(AP)—Dr. Francis E. Townsend announced tonight that he, the Rev. Father Charles E. Coughlin, the Rev. Gerald K. Smith and Representative William Lemke will participate in a tour in support of Lemke, the new union party's candidate for president.

This followed a tumultuous day in the national convention of Townsend clubs which saw the wedding of Townsend's old-age pension movement, Coughlin's National Union for Social Justice, Smith's Share-the-Wealth movement, and Lemke's candidacy in the election campaign.

Rev. Coughlin addressed the convention today with a bitter attack on what he called "that betrayer and liar, Franklin 'Double-Crosser' Roosevelt."

Prolonged cheering filled the Cleveland public auditorium as Townsend, Coughlin and Smith clasped hands upon the platform in a signal of unity.

A discordant note was sounded by Gomer Smith, national vice president of the Townsend organization. He denounced the resignation of Roosevelt.

His speech brought mingled cheers and boos.

Townsend then announced to a press conference that he would ask the board of directors to oust Smith.

Townsend said that details of the campaign tour have not yet been arranged.

Townsend said all four leaders had agreed to campaign together in the tour. They expect to visit New York, Philadelphia, Chicago, St. Louis, New Orleans and possibly San Francisco.

Coughlin Bitter. Earlier, Coughlin said he was not asking the delegates to endorse the union party, but asked "How many will follow Dr. Townsend?" Delegates rose to the feet and cheered.

Father Coughlin asserted in his address that the National Union would not support any congressional candidate who worked for the re-election of President Roosevelt.

"As far as the National Union is concerned," Coughlin said, "no candidate who is endorsed for congress can support the great betrayer and liar, Franklin D. Roosevelt, who promised to drive out the money-changers and succeeded in driving the farmers from their homesteads and citizens from their homes in the cities."

"He has piled up the greatest debt in history. He let the bankers write the 35 billion national debt for you and your children to pay off."

Later resolutions were adopted inviting the presidential candidates to

HARTSFIELD PAYS MAYOR'S RAGE FEE

Enters Contest Against Key and Wells; 5 Qualify for Other City Offices

A three-cornered mayoralty contest in the September 2 municipal primary was assured yesterday when William B. Hartsfield qualified.

Previously, Mayor Key and James Leech Wells, former councilman, had paid their \$5000 entrance fees and became full-fledged candidates.

As he paid his fee, Hartsfield issued a statement asserting that the administration is backing an entire ticket "from the mayor to members of the executive committee."

Five others yesterday paid their entrance fees to L. Glenn Dewberry, acting secretary of the city democratic executive committee, bringing the total list of qualified aspirants to 30 for the 38 positions for which nominations will be made in the primary.

Clarke Donaldson, for the past eight years chief of construction; William H. Joyner, candidate for city treasurer; Charles N. Walker, seeking the position of city clerk; and Dr. Luther M. Vinton, candidate for council from the new sixth ward, were among those who paid their fees.

Dewberry collected \$1,335 from those who qualified yesterday, and the

Three Persons Killed In Two Air Crashes

BEVERLY, Mass., July 16.—(UP)—Orville Knapp, of New York, well-known dance orchestra leader, was killed today when his open cockpit plane crashed from a height of 100 feet as he was taking off from Beverly airport, police reported.

The orchestra leader, according to Beverly airport attaches, said Knapp had arrived there in his own plane five minutes previously. Before taking off Knapp said he was to practice landings, according to attendants.

MAIL ORDER HOUSE REZONING PERMIT EXPECTED TODAY

Entire Planning Board To Vote on Application of Montgomery Ward; Many Favor Proposal.

Approval of the petition of Montgomery Ward & Company for rezoning stretches on Peachtree road preparatory to erection of a huge \$3,000,000 merchandising house is expected to be voted this morning by the entire membership of the city planning commission.

The commission meeting will be executive and the public will be excluded, it was announced yesterday.

Walter S. McNeal Jr., chairman of the zoning subcommittee of the commission, which heard the petition Wednesday, announced yesterday the matter is of such prime importance and means so much to Atlanta that he feels the entire planning group, headed by Wilbur Kurtz, should pass on it.

Thus the entire commission will be called together at 10 o'clock this morning at the city hall and, if anticipations are borne out, the commission will ask council to rezone the properties at Monday's session of the latter body.

Many Approve Change.

Letters approving the project were being received during the day by various officials of the planning group. Mrs. Lena C. Martin, who owns several tracts of land in the vicinity, not only favored the rezoning asked, but suggested that the entire Peachtree frontage from the Southern Railway station to the city limits, be zoned for business use.

O. M. Fuller, who asserted he represented two clients and good personal friends, wrote McNeal that he came to the public hearing Wednesday afternoon to support the petition in behalf of those who represents but, when he heard the details of the improvement, he not only failed to oppose the rezoning, but now favors the rezoning.

Expected Clients' Approval. Last night he wired his clients, who

M'BRIDE RESIGNS ANTI-SALOON POST

Cherrington Also Quits; League Revamps Plan of Action Against Wets.

CINCINNATI, July 16.—(AP)—Accepting the resignations of two of its veteran leaders, the Anti-Saloon League of America revamped today its entire plan of action.

Dr. F. Scott McBride, for 12-1/2 years general superintendent, and Dr. Ernest H. Cherrington, director of education, resigned at a meeting of the league's executive board to enter allied fields of dry endeavor.

Dr. McBride will become superintendent of the Pennsylvania state league, effective October 1, and Dr. Cherrington takes over leadership of the Methodist Episcopal church board of temperance, prohibition and public morals, to which position he was chosen several months ago in Columbus, Ohio.

O. G. Christgau, associate general head of the dry organization, said no successor would be chosen immediately.

Christgau reflected a statement by Dr. McBride, that the "battlegrounds" of the league's campaign for prohibition are being shifted from the cities to the country. In no part of the country is any great surplus to be found, it was reported.

Just how high milk and cream prices here will rise is a matter of conjecture among local dairymen and dealers. It all depends on how soon steady rains set in, they said.

One large dairy reported its farm had managed to produce a fair stand of corn, stunted but useful for fodder, and the high winds and hail several nights ago beat the plants

Continued in Page 9, Column 5.

Boykin Final Winner In McRae Libel Action

The long-drawn-out legal fight between Solicitor General John A. Boykin and William G. McRae, Atlanta lawyer, was ended yesterday with Boykin the victor.

The court of appeals wrote the final chapter in the libel suit filed by the two against each other as the result of their campaigns four years ago when Boykin defeated McRae, by complying with a supreme court order which declared Boykin should be awarded \$10,000 damages against McRae.

The lawyer sued the solicitor general for remarks made in the campaign and Boykin filed a libel suit against McRae. McRae was not allowed anything on his suit, while Boykin won \$10,000. Carried to the court of appeals by McRae, a new trial was ordered on the grounds that the trial judge erred by not making a written copy of his charge to the jury.

This decision of the court of appeals was reversed by the supreme court and yesterday the court of appeals upheld Boykin by vacating the new trial order.

McRae is again opposing Boykin in the democratic primary.

ATTEMPT ON LIFE OF KING EDWARD FOILED BY WOMAN

London Malcontent, Former Editor, Fails in Protest to Monarch; 'Didn't Want to Hurt Him.'

LONDON, July 16.—(AP)—Edward of England, a king for almost six months, rode unharmed today into a range of a loaded, leveled pistol which was knocked from the hands of a London malcontent.

The pistol, taken from the hand of its crippled, baldheaded owner by a middle-aged heroine in gray, clattered harmlessly to the roadway behind the king's horse on crowded Constitution Hill.

The malcontent, George Andrew McMahon, 34, once an editor and a native Scotsman, struggled in the strong arms of London bobbies. Whiskered to a Bow street dock, he yelled: "I didn't want to hurt him. I only did it as a protest!"

His "protest" was not explained, for the man was incoherent. Since he assailed Sir John Simon, the home secretary, and said he had tried to reach him, some suggested he may have sought to plead against capital punishment.

Remanded to Jail.

He was charged with "unlawful possession of a firearm with intent to endanger life" and remanded to jail for eight days.

McMahon was sentenced to a year's imprisonment in May of 1933 for allegedly libeling the police, but won an appeal and the conviction was quashed. Until recently, it was stated, he was editor of a paper called the "Human Gazette."

Turning from Hyde Park to Buckingham palace with a brigade of guards at the time of the incident, McMahon said he presented new colors to six battalions of troops and told them: "Humanity cries out for peace."

He was in officer's uniform. With him was his oldest brother, the Duke of York. At the park, Queen Mary had watched the brilliant presentation of colors.

Just as his horse passed under the

PEAK MILK PRICES IN PROSPECT HERE

Atlanta's Dairymen Face Acute Shortage in Stock Feeds as Crops Wither.

Milk prices during the coming fall and winter are scheduled to hit the highest peak in many years, with the possibility of reaching a record high if substantial rains do not relieve the summer-long drought in a short time, milk producers and dealers here agreed yesterday.

Wholesale cream prices already are the highest in six years, it was reported.

Cattle feedstuffs—corn, hay, fodder and other grain and grass feeds—have practically been wiped away by the unseasonable drought and scorching sun. Only in spots, where infrequent cloud-bursts have given partial relief, is any grain or grass feed available, the dairymen declared.

Jonesboro Nearest "Oasis." Atlanta's closest "green" area was said to be in the vicinity of Jonesboro, where rains have been more frequent.

Even in Indiana, a leading grain and hay-producing state, feedstuffs are being imported from whatever regions could supply them. In no part of the country is any great surplus to be found, it was reported.

Just how high milk and cream prices here will rise is a matter of conjecture among local dairymen and dealers. It all depends on how soon steady rains set in, they said.

One large dairy reported its farm had managed to produce a fair stand of corn, stunted but useful for fodder, and the high winds and hail several nights ago beat the plants

Cobb Says: World Rejoices for King

By IRVIN S. COBB. (Copyright, 1936, by North American News.) BEVERLY HILLS, Cal., July 16.—If he was a communist, of a breed who are usually half-baked mentalities, it was only to be expected that his effort to murder King Edward should be—thank heavens!—a fizzle.

If he was a lunatic, then he's the kind of lunatic who should spend the rest of his days behind high walls. If he was a deliberate assassin—well, at least he gave a gallant monarch a chance to show how gallantly monarchs can behave in the face of danger.

Any man, given the royal background and an open path to the throne can be a king, but not every king is a man. This king is—he proved it and this part of the world rejoices at the outcome.

KING EDWARD VIII

THREE ARE KILLED IN STATE STORMS

Macon Damage \$100,000; More Showers, Warmer Weather Forecast Here.

Storms caused the death of three persons in Georgia yesterday, and resulted in injury to more than a score in Macon.

Accompanied by a 48-mile wind, five inches of rain fell as the storm struck Macon. Trees were uprooted; roofs were lifted; plate glass was smashed, and low areas of the city were damaged with a loss estimated at approximately \$100,000.

Jennie James, 32, died as her home collapsed under the onslaught of the terrific wind at Macon; Roy Ellis, Stone Mountain farmer, died in an Atlanta hospital after being stunned by lightning Wednesday night, and Robert Gatties, 23, was killed by lightning near Waycross.

Ten more counties were added to the federal government's emergency drought list from Washington, as 56 of an inch of rain fell during the afternoon in Atlanta and weather officials announced that the day's rains were widespread through middle northern Georgia.

A \$125,000 fund has been made available for drought relief in Georgia by the Rural Resettlement Administration, according to announcement yesterday by Senator Richard B. Russell Jr. This money, Russell said, is in addition to any other set aside for the purpose.

A return of warmer weather to Atlanta today was promised by the weather bureau, with temperatures of 92 degrees during the afternoon predicted. Local thunderstorms may be expected again this afternoon.

Ellis, who was reported, was standing near the door of his barn when the bolt struck a few feet away. He was knocked unconscious but was not burned. He was taken to Emory University hospital shortly after 7 o'clock Wednesday evening after receiving emergency treatment from a Stone Mountain physician. He died at the

New York Electrocutes Husband, Other Woman

OSSENING, N. Y., July 16.—(AP) Mrs. Margaret Creighton and Everett Applegate were electrocuted tonight for the eggnog murder of Applegate's wife, Ada.

Mrs. Creighton preceded her alleged lover to the electric chair. Two men and three guards wheeled her in a wheelchair.

She apparently was unconscious when she stepped into the chair. Applegate walked to the chair unaided.

Warden Lewis E. Lawes said that Mrs. Creighton was the first condemned person in Sing Sing's history who had to be wheeled or carried to the electric chair. She was the sixth woman electrocuted since the chair was installed in 1891.

SOARING MERCURY SENDS FATALITIES UPWARD TO 4,200

Chicago Records Second Driest July in History as 100-Degree Weather Returns to That Section After Two-Day Respite.

MARKET UNSTEADY AS PRICES LEAP

'Practical Crop Failures' Reported in Southern Illinois Counties; Corn Prices Reach New Top.

CHICAGO, July 16.—(AP)—The corn belt finished two weeks of the hottest, driest weather it has known today with no relief in prospect and fears growing that a crop disaster exceeding that of 1934 was in the making.

Except for a few favored areas, the millions of acres of middle west farmlands which produce the nation's greatest cash crop baked on for the 14th day in temperatures which continued to top previous highs.

Deaths ascribed to the long stay of the torrid wave decreased somewhat in number, but mounted upward of 4,200 to maintain a 300 daily average.

A special Agriculture Department survey in Washington assured that despite the destruction of crops the forthcoming 12 months would see no actual scarcity in food supplies. The same report, however, estimated the domestic supplies would be about 1 per cent under the like June, 1934-June, 1935-period, also including a great drought period.

MY COOKERY

By MISS RUTH CHAMBERS.

At any time of year, meat lends flavor to the vegetables which are in season as well as those which have no one special season. And, in fair exchange, vegetables provide their own tasty qualities, their various food ele-

ments and their colorful appearance to dress up the meat dish.

There are vegetables which go especially well with certain meats, but it is well to try out new combinations from time to time, by way of variety. Many vegetables are improved in flavor when they are actually cooked with the meat, the flavors thus blending with delicious results.

Stuffed Green Peppers. Green peppers, stuffed, are a most tempting dish to most of us.

Three-fourth cup ground cooked meat, 1-4 cup milk or meat stock, 2 cups boiled rice, 1-2 teaspoon paprika,

FISH OR SEA FOOD
Need
LEA & PERRINS
SAUCE THE ORIGINAL
WORCESTERSHIRE

1 tablespoon grated onion, 1 teaspoon salt, 1-8 teaspoon pepper, 6 medium sized green peppers.

Parboil the green peppers for 5 minutes; remove, and plunge in cold water. Remove the caps and seeds. Mix the remaining ingredients together, stuff the peppers with this. Place in a pan, pour about 1 cup of hot water around the peppers, and bake at 400 degrees F. for 45 minutes, or until the peppers are soft.

Braised Short Ribs of Beef With Vegetables. Braised meat offers a convenient way of cooking vegetables, and the combined flavors are very fine. Here is a nutritious dish for the family dinner.

Five pounds short ribs of beef, 8 medium-sized potatoes, 4 large onions, 4 turnips, 8 medium-sized carrots, 3 teaspoons salt, 5-4 teaspoon pepper.

Wipe the meat with a damp cloth, rub with salt and pepper, place in roaster and sear for 30 minutes in a hot oven (500 degrees F.). Reduce temperature to 325 degrees F., or moderate. Add 2 cups water, cover closely and bake 1 hour, then add whole potatoes pared, carrots cut in halves, onions and turnips quartered. Continue cooking until vegetables are

tender. Serve meat on platter garnished with vegetables. Serves 5 to 6.

Beef Birds With Carrots. Here is a casserole dish in which round steak and carrots are cooked together.

Two pounds round steak, 6 small carrots, 1 cup bread crumbs, sifted, 1 egg, 1 tablespoon milk, 3 tablespoons butter, salt, pepper.

Have round steak cut thin into pieces suitable for individual servings. Season with salt and pepper. Place a carrot in each piece and roll. Fasten each roll securely with string or toothpicks. Roll in egg beaten with milk and fine bread crumbs. Brown in lard or drippings. When nicely browned, add 1 cup water and simmer until rolls are done, about one hour and a half. Thicken liquid for gravy. Serve with baked potatoes, which have had the centers taken out, mashed and replaced. Decorate with paprika.

Three pounds lamb, cut from the neck, 1-2 cups diced potatoes, 1 teaspoon lemon juice, 3 cups boiling water, biscuit crust, 6 tablespoons flour, 1 cup string beans, cooked, 1-4 cup butter, salt, pepper.

Cut the lamb in dice, dredge with flour and fry slightly in half the but-

ter. Add boiling water and simmer until tender, adding 1-2 teaspoons salt at the end of an hour. Then add the onion juice and the potato balls, stir in the string beans, thicken with the balance of the butter and the flour rubbed together, season to taste, bring to boiling point and pour into a baking dish. Set on the crust, cut out as small biscuits. Bake about 20 minutes in a hot oven.

NEGRO BOY IS KILLED BY 'UNLOADED' PISTOL

The "unloaded pistol" claimed another victim yesterday morning. And this time the pistol was not only "unloaded," its wielder thought but was a toy blank cartridge pistol besides. Hattie Daniel, 10-year-old negro girl, of 424 Vine street, pointed the toy at her eight-year-old brother, Henry, and pulled the trigger. A loud report filled the room and Henry dropped dead, a bullet through his heart.

Police who investigated reported a .22 caliber cartridge had been placed in the toy gun and the girl did not know it when she snapped the trigger at her brother. The boy was pronounced dead on arrival at Grady hospital.

BRIDGES ENTERS RACE FOR ALDERMAN'S POST

Former Police Committee Chairman Makes Removal by Key Main Issue.

A sober police department and his record in aiding in preserving the city's credit, are the two major planks in Councilman G. Dan Bridges' race for alderman from the newly created first ward, he announced yesterday.

Bridges was chairman of the police committee which was deposed by city council after the committee head and Councilman J. Allen Couch, committee member, clashed over committee policies. At that time he asserted he would take his battle directly to the people of Atlanta.

He has served for six years, as councilman from the present third ward and was chairman of the police committee for about four years.

Raps Mayor Key. His statement of his candidacy yesterday flayed Mayor Key for "deposing me as chairman of the police committee at the request of a few police politicians and a discredited committee."

Bridges said he understands he is a marked man with the present administration and "that a few discredited and drunken policemen will attempt to defeat him." He expressed confidence, however, that he will be nominated by an overwhelming vote.

Text of Statement. "I hereby announce my candidacy for alderman from the new first ward.

"Some months ago I stated that I would rest my case with the people of Atlanta, and I now give them the opportunity, with full faith in their sense of fairness and decency.

"For six years I served as councilman from the old third ward and endeavored in every way to aid in preserving the city's credit and upholding law and order.

"The public is familiar with the actions of the mayor in deposing me as

Enters First Ward Race

G. DAN BRIDGES.

chairman of the police committee at the request of a few police politicians and a discredited committee.

"If they approve my stand in insisting that incompetent and drunken policemen ought to be removed, they will have a chance to show it.

"If they approve my further stand in insisting that the chief of police ought to remain sober, as well as members of the police committee, they will have a chance to show that.

"I understand that I am a marked man with the present administration and that every effort will be made by administration supporters, together with a few discredited and drunken policemen, to defeat me, but from the offers of support from decent people all over Atlanta I believe I will be overwhelmingly elected."

Lodge Memorial Services Tonight

Joint memorial services will be conducted by Clara Rebekeah Lodge No. 22 and Central Lodge No. 28 of the Independent Order of Odd Fellows at 8 o'clock tonight at Old Fellows Hall, 160 Central avenue, S. W.

Exercises will be in charge of Clara Rebekeah lodge. After the ceremonies, which will include the draping of the charters of both lodges, short talks in memory of deceased members will be made.

Members who have died since January 1 are Harry G. Poole Sr., Mrs. Minnie Lee Brown, R. W. Hay, W. L. McLean, E. L. Fontaine and B. A. Guill.

OLD-AGE PENSION MO PLAYED AND DEFEND

Social Security Leader holds Unemployment Compensation in U. S.

BLUE RIDGE, N. C., July 16.—W. R. Williamson, acting Federal Social Security Board member and Robert R. West, cotton mill owner from Danville, Va., disagree the question of old-age pensions unemployment compensation at the Southern Conference on Human Relations in industry here today.

Williamson called social security an "insurance program and attempt to apply wise budgeting to income of employees."

"All methods of thrift are except boarding," he said. "The social security is to substitute the pauper's oath the recognition old age and unemployment have an income through wise budgeting."

Williamson said the old-age pension given by individual companies not satisfactory because it did care for large numbers of employees who did not remain with the company all their lives. He said age benefit "must of necessity be a federal basis."

West, in his speech, took a against such "governmental interference." He said the social security program "requires subscription of part of industry, including both employer and employee, regardless of industry to pay."

NEGRO GIVEN RETRIAL IN STURDIVANT DEATH

The state supreme court yesterday ordered a new trial for Tom B. Wilkes county negro, convicted of slaying of H. A. Sturdivant, of Vinton, Ga., brother of Chief of Police T. O. Sturdivant, of Atlanta.

The high court sent the case to the Wilkes county superior where a jury found the negro guilty in Sturdivant's death with no injuries he received when shot by a motor car.

The supreme court upheld the verdict of the jury of lawyers the trial judge erred in his ruling to the jury. Justice Gilbert diss from the majority of the court.

DRM HITS MACON; DAMAGE IS \$100,000

Continued From First Page.

WOMAN KILLED STORM SWEEPS CITY

MACON, Ga., July 16.—A woman crushed to death in the wreckage of her home, more than score of persons injured and property damaged to an extent of \$100,000 as a wind swept over Macon early morning, bringing with it five inches of rain and lifting roofs, uprooting trees, smashing plate glass and leveling the low areas of the city.

Miss James, 32, died as her house was struck by the sudden blast of that reached tornado-like proportions.

Electric wires were swept down the poles snapped off. As all ambulances in the city dashed forth after victims of the storm, doctors and nurses used flashlights to carry on their work in emergency rooms.

Five Houses Collapse.

Small houses collapsed in East Macon, flooded one section of city to a depth of 14 feet; trees stripped and uprooted; communication lines swept into disuse; a tree was left undamaged in a park opposite Mercer University; many automobiles left in the streets overnight were damaged by trees, plate glass windows were shattered throughout the city; insurance estimates the loss from alone, and not from water, at \$50,000; the loss from flooding basements downtown in the residential area has not been calculated.

Georgia Power Company workers rushed from Atlanta to help re-lighting service; Ben C. Smith, president of streets, said that 85 men and 15 trucks he would the main thoroughfares cleared of the night.

List of Injured:

James C. Shubert, wife of Mercer University registrar, possible hurt here included:

B. T. Gassett, 31, bruised and cut knees and elbows.

Laura Jackson, facial cuts and bruises.

Lena Glover, ankle lacerations.

Sallie Banks, bruises on face, legs and arms. Others also were hurt.

Apparently centering its attack upon the city, peach orchards surrounding Macon escaped serious damage. Much of the peach crop already has been harvested.

The torrential rains accompanying the storm flooded one low area to the depth of 14 feet and forced several persons to take refuge on a garage top until they could be rescued.

Other storm victims were Vance Bullock, 17, of Jefferson, and Weldon Morton, 17, of Nicholson, both of whom received burns when lightning struck near them.

WAYCROSS FARMER IS KILLED BY BOLT

WAYCROSS, Ga., July 16.—Robert Gattis, 23-year-old farm laborer, was killed by lightning while working in a field near here late today.

STEADY RAIN OFFERS DROUTH RESPIRE HERE

Atlantans submitted without protest yesterday as showers that started falling shortly after noon, developed into a slow, steady rain at continued falling until 4:30 p. m., soaking the dry, parched ground with .56 of an inch of rain, the heaviest since June 18, when a 1.33-inch fall offered a momentary respite from the 90-day drouth.

As the rain descended evenly from a dark sky, word was received by Senator Richard B. Russell Jr., from Washington that \$125,000 has been made available immediately by the Rural Resettlement Administration, at Washington for drouth relief in Georgia. This money, the senator said, will be in addition to any other set aside for drouth relief purposes.

Will W. Alexander, acting RRA administrator at Washington, notified the senator of the availability of the money in a telegram, Russell having asked that this sum be set aside for Georgia as soon as possible.

Further word from Washington yesterday was that ten more Georgia counties had been added to the 57 now listed on federal relief programs as emergency drouth counties, the first to benefit from relief machinery that will begin operating for the farmers early next week. The added counties were Barrow, Clay, Columbia, Douglas, Gwinnett, Lincoln, Oglethorpe, Quitman, Stewart and Webster.

Fulton county, one of Georgia's 57 emergency sections, will begin this morning of raising its cooperation to Works Progress Administration and RRA officials who will handle the federal relief program here. Committees to help the federal agencies determine the merits of farmers who apply for relief will be discussed this morning by Dr. Charles R. Adams, chairman of the Fulton county board of commissioners, and T. J. Durrett, district WPA engineer. Their conference will be held at 11 o'clock at the county commissioners' offices. Committees representing the districts of old Fulton, old Milton and old Campbell counties are to be chosen.

CCC Increase Sought.

Senator Russell yesterday also wired Secretary of War Dorn and Conservation Director Fletcher a request that Georgia's quota of CCC boys be increased at least 1,500, to take enlistments from farms hit hardest by the drouth. The senator said that he based his request on an understanding that New England camps were operating beneath their quotas.

Atlanta faces prospects of more thundershowers this afternoon. Temperatures are expected to range between 70 degrees this morning and 92 this afternoon. Yesterday, with the arrival of rain, 76 was the highest mercury reading during the day, and during the afternoon 68 degrees prevailed.

Yesterday's rains were general through middle and north Georgia, the Weather Bureau reported. Columbus reported .31 of an inch early in the day with a continuance of showers promised during the night. Rains started at Augusta at 10 o'clock yesterday morning; Clayton, the northeast Georgia mountain resort, had high winds and a heavy rain. Americus, until this week classed as one of Georgia's driest spots, had its third day with rain of more than one inch. Tuesday it got 1.25 inches. Wednesday 1.20 inches and yesterday 1.03 inches, making a total of 3.48 inches for the three days.

Gainesville, in north Georgia, had 2.45 inches of rain. Rome had .55 and Newnan .51.

FREE RADIO IS VIEWED AS BAR TO TYRANNY

RCA Official Places Unshackled Communications Over Suffrage.

CHARLOTTESVILLE, Va., July 16.—(AP)—Antennae reaching out over America from untaxed radio receivers to catch from the air a variety of programs, all free, are symbols of a new democracy of opportunity in mass information, education and culture, chairman of the board of the Radio Corporation of America, said today.

Frederick A. Willis, assistant to the president of the Columbia Broadcasting Company, and Franklin Waltman, of the Washington Post, participated in the discussion on the responsibility of mass communication media in a democracy before the Institute of Public Affairs at the University of Virginia.

While means of mass communication remain unshackled, as in America, it will be, General Harbord said, "The very cornerstone of democracy, a bulwark against the tyranny that thrives on the suppression of truth. 'Untrammelled books' an untrammelled press, and an untrammelled radio are more fundamentally important than votes," he continued. "Before a vote is worthy of a candidate, the voter must have the opportunity of obtaining information. Men had votes in ancient Rome, but the republic failed. It failed because, among other reasons, it had no mass communication."

"This early republic became a mockery of democracy. The same was true of other attempts at direct popular government before the enlargement of education and the beginnings of mass communication. The press helped bring back republicanism to the earth. Now broadcasting has been added as the most powerful ally of free and liberal governments."

General Harbord traced the development of electrical communication since the invention of the telegraph, and told how the Radio Corporation of America is carrying on experiments in television and in use of ultra-short wave radio.

He explained how, a few weeks ago, his company publicly demonstrated an ultra-short wave circuit that could operate enough automatic typewriters to carry 12,000 words a minute between New York and Philadelphia.

POLAND'S AIR CHIEF, 2 OTHERS DIE IN CRASH
WARSAW, July 16.—(AP)—Poland's air force chief, General Gustav Orlicz-Dresler, lost his life with two other officers in an airplane crash today, just as the ship carrying his wife home from America appeared on the Baltic horizon.

Colonel Loth and Captain Lajewski, who were flying with the general toward Gdynia. There, Orlicz-Dresler had planned to meet his wife, arriving from the United States on the liner Pilsudski.

Holiday-makers at Orlowo, a suburb of Gdynia, saw the plane crash into the sea several hundred yards from the shore.

FIRST HALF-YEAR HIGH ESTABLISHED BY G. E.

Earnings Largest Since Same
Period of 1931; 58 Cents
Share Profit.

NEW YORK, July 16.—(AP)—General Electric Co. reported today the largest earnings for the first half of the year since the like period of 1931. Profit available for dividends on the common stock was \$16,592,324, equal to 58 cents a share. This compared with \$13,541,429 or 40 cents a share for the first half of 1935. It was announced by Gerard Swope, president. Orders received during the second quarter amounted to \$77,398,718 against \$55,163,014 for the same period last year, an increase of 40 per cent.

THREE MEALS A DAY

HOME TESTED RECIPES
BY Sally Sewer

Cool Drinks for Hot Summer Nights

After a long, hot day the prospect of relaxing on porch or lawn with a cooling drink at hand has charm. There are so many variations to be concocted with simple ingredients as a base that the resourceful hostess finds it an easy matter to "spring" surprises on her guests.

Pineapple Raspberry Ade.
One cup water, 1 cup crushed pineapple, 1 can crushed raspberry juice, 1 lemon.

Mix all ingredients together and keep in refrigerator until ready to serve. Serve in tall glasses with ginger ale cubes and fresh mint leaves.

Spiced Mocha Cocoa Milk Shake.
Two-third cup rich milk, 1-3 cup made coffee, 2 tablespoons malted cocoa, 1 grain salt, 1-8 teaspoon cinnamon.

Put ingredients in beverage shaker, shake very thoroughly and serve cold.

Spiced Pineapple Juice.
Boil 1 cup sugar, 1-2 cups water, 2 sticks cinnamon, 8 whole cloves. Strain. When cool add to 4 cups unsweetened pineapple juice, 1 cup orange juice, 1-2 cup lemon juice. Pour over crushed ice. Serve in thin glasses. If you wish, tint the water with vegetable coloring before it is frozen in the refrigerator tray. Crushed green ice is very attractive.

Mint Lemonade.
Pink lemonade, made with currant jelly, is a favorite beverage at college teas and dances. The contents of a jar of currant jelly are dissolved in a quantity of boiling water, allowed to cool and then added to lemonade made in the usual way.

Grape Iced Tea.
Beat 1 glass grape or currant jelly to a liquid and add to it 1 tablespoon lemon juice. Stir into 1 quart chilled strong tea and add ice cubes.

Grape Shake.
Beat 1 glass grape jelly to a liquid, add 1 tablespoon lemon juice and 1 quart whole milk. If desired, a few drops of mint extract or crushed fresh mint may be added before serving. Serve with an ice cube in each glass.

Fruit Punch.
Melt 1 glass grape or currant jelly which has been broken up with a fork, in 1 cup boiling water. Cool, and add 1-2 glass lemon juice (3 lemons), 1 cup pineapple juice (may be taken from 1 large can sliced pineapple), 3 cups cold water and 1-4 teaspoon mint flavoring or fresh mint leaves. Serve about 1-2 cup over 1-2 glass crushed ice. Garnish with sprigs of mint which have been dipped in powdered sugar when moist.

Prune Shake.
Combine 1 cup milk and one 5-ounce can strained prunes, heating with a rotary egg beater. When thoroughly mixed, beat in 1-2 cup fresh or canned pineapple juice, and chill.

DE LACEY ALLEN OPENS CAMPAIGN AT ALBANY

Candidate for Lieutenant
Governorship Favors Plan-
ned Elementary Education.

ALBANY, Ga., July 16.—Announcing his support of a permanent planned education system for Georgia in the elementary schools as well as in the institutions of higher learning, De Lacey Allen, of this city, former state commander of the American Legion, today launched his campaign for lieutenant governor at a well-attended meeting sponsored by his friends in Dougherty and surrounding counties.

The meeting, one of the largest ever held in this section, was followed by a free barbecue arranged by Allen supporters from this area. All candidates for state offices, including Allen's two opponents, W. F. Scott, of Thomasville, and Senator J. Ellis Pope, of the candidates for governor also were invited to be present. All were invited, but only Speaker E. D. Rivers, of the house of representatives, attended. Rivers made a short address.

Among the candidates attending was Congressman E. E. Cox, of Camilla, a candidate for re-election. Like Speaker Rivers, Congressman Cox made a short talk.

Praised by Editor.
The Albany candidate was introduced by Henry T. McIntosh, veteran editor of the Albany Herald, who paid him numerous high tributes, especially for his work in interesting the American Legion in school endeavors during his term as state commander.

Discussing his planned educational program, Commander Allen said the schools would be guaranteed their full appropriation by the general assembly so school leaders won't have to come to the legislature as mendicants "seeks funds on which to operate the elementary schools."

Allen said his program included a minimum of seven months' school term for every school in the state; payment of teachers promptly; adequate and safe buildings; safe transportation when transportation is necessary and free schoolbooks for all students in the common schools.

Lists Program.
The candidate also said his platform favored:

1. A state-wide police patrol "divorced from politics as much as possible."
2. Improvement of the livestock industry of the state.
3. Governmental interest in the purchase of Georgia products by Georgians.
4. Co-operation with the game and fish department's program to improve Georgia's wild life.
5. Legislation to give pensions to the state's aged.
6. Payment of a "living wage" to every state employee.
7. The legislature having the right to call itself into extra session by petition signed by two-thirds of the members "whenever the necessity arises."

Opposes Tax Limitation.
The candidate said he was opposed to the limitation of taxes to 15 mills as proposed in a constitutional amendment to vote on in the November general election.

"In my opinion," he said, "all the dictatorial laws passed in Louisiana held no more danger of a dictatorship than does this proposed amendment that absolutely destroys your right to run your local governments as you yourselves see fit."

Allen said he was for President Roosevelt and the democratic party.

Discusses Amendment.
In discussing the proposed amendment to create a lieutenant governor, Allen said:

"Please understand that the lieutenant governor's amendment has no connection whatever with any of the other amendments proposed for the people's ratification. Each and every one of them are separate amendments, and the lieutenant governor, who is elected, will serve only for the same length of time that the governor serves, and you can vote against the amendment providing for a four-year term of office for state officers, if you wish, and still vote for the amendment creating the office of lieutenant governor."

"This amendment creates no new office, either, as you may have heard. It merely changes the name of the president of the senate to that of lieutenant governor and the salary is only \$2,000 a year. However, it provides that you, the people, shall have the right to elect this official, and I want to say to you who are honestly interested in the welfare of your state, who believe in the democratic way of allowing the people to elect their public officials, who want to know something about a man and what he is for, who want only men in public office who are not afraid to come before the people and have their record fairly judged by the people, who all want to elect their state officials, who are not afraid to come to them selected in some smoke-filled tel room in Atlanta by a small gag of selfish, 10-cent cigar smoking politicians representing the big corporations and the special interests, the you, I will say, above all things to the polls this fall and vote for the democratic law that will allow the people, to elect your own official."

"This amendment further provides that this official shall have only same rights, duties, and responsibilities as the president of the senate has, but who shall exercise the effective power of the governor and receive his compensation in case of death, resignation, or disability of governor. In other words, the lieutenant governor is no more nor less than the president of the senate, and if for any reason the governor no longer served, the president of senate, or under the new law the senate voted, would serve as governor. You would not be willing to delegate to the legislature the right to select the governor of your state, and that under certain circumstances is exactly what you may do at time under the present system."

lie officials, who want to know something about a man and what he is for, who want only men in public office who are not afraid to come before the people and have their record fairly judged by the people, who all want to elect their state officials, who are not afraid to come to them selected in some smoke-filled tel room in Atlanta by a small gag of selfish, 10-cent cigar smoking politicians representing the big corporations and the special interests, the you, I will say, above all things to the polls this fall and vote for the democratic law that will allow the people, to elect your own official."

TOWNSEND AND SMITH RAISE LEMKE BANNER

Continued From First Page

the republican, democratic and socialist parties to come before the coalition and speak. Lemke will lead Sunday.

The resolution said the Townsendites are "not a political party but greatest education and humanitarian movement on the face of God's earth, and to that end we want the clear for the election of our congressional and senatorial candidates."

Gomer Smith asserted that G. L. K. Smith was attempting to control of the Townsendites. The Oklahoma leader said he had 6,000,000 followers.

"If you want to look for 6,000,000 followers you would find them in the swamps of Louisiana most of them would turn out to be bullfrogs instead of voters," he said.

"Shall this great movement of organization debase itself and go on a wild-mind fighting expedition Smith asked. There were loud shouts of "No," mingled with boos.

PROFESSIONAL WOMEN LIKE 'DEAL' PLATFORM

CHICAGO, July 16.—(AP)—The national democratic convention's platform of women as alternates to the party platform committee commended today by the board of directors of the National Federation of Business and Professional Women's Clubs.

"The democrats' action was first . . . in the history of national conventions" and was "very engaging," a statement issued after board meeting declared.

Miss Lena Madson Phillips, of New York city, chairman of a committee appointed to present a federal plank to the democrats "defining the status of business and professional women" reported a "strong" support at not getting into the platform.

Miss Jane Todd, of New York, chairman of the committee to take the women's plank before republican convention, declared "complete satisfaction" at the adoption of a plank read "We oppose legislation directed against women in federal and state service."

The board adopted the following recommendations: A pledge to for adequate appropriations for women's and children's bureau of the Department of Labor; advance of a senate bill to amend the act of 1907, known as the Rushmore Memorial Association to in Susan B. Anthony among the tributes Americans.

TENNESSEANS QUALIFY NASHVILLE, July 16.—(AP)—

tion officials estimated today that approximately 177,000 persons will be qualified to vote in the state's largest counties when supplement registrations are completed.

RECOMMENDS RAIDO STAT WASHINGTON, July 16.—

Examiner Ralph L. Walker recommended to the Communications mission today that the state be granted to construct a new radio station at Kingston, N. C.

COLLEGE GIRL IS SLAIN IN ASHEVILLE HOTEL

Staten Island Co-ed Found
Shot, Stabbed to
Death.

ASHEVILLE, N. C., July 16.—(AP) Helen Cleveland, 19-year-old Staten Island college girl, was found shot and stabbed to death in her hotel room here today, apparently the victim of an attempted assault.

Her pajama-clad body was found about 8 a. m. by her uncle, Professor W. L. Cleveland, of Raleigh, who had a room just around the corner of the hotel corridor.

Investigators said it appeared Miss Cleveland had been shot while kneeling. Her legs were folded back under the body, which was face up, as if she had fallen backward from a position on her knees. It was on the floor near the corner of the bathroom.

A physician said he found indications of an attempted criminal attack, but declined to say positively that one had been made.

A .25-caliber pistol bullet had pierced her chest, while her face showed four or more stab wounds from some sharp instrument. An exploded .25-caliber shell was found in the room, but neither a pistol nor a stiletto or similar weapon could be located.

EDUCATORS OPEN SESSIONS TONIGHT

Two Days of Discussion
Planned at Druid Hills
School.

Leaders in the Georgia progressive education movement will gather in Atlanta today for a two-day session, which opens at 8 o'clock tonight at Druid Hills school. Sessions will continue through tomorrow morning.

The general subject to be discussed will be "Meeting Developmental Needs—The Progressive Program." Specific topics tonight include "The Developmental Needs of Children," by Janice P. Dugan, supervisor, Los Angeles, Cal.; "The Developmental Needs of the Adolescent," by J. L. Buck, supervisor of secondary schools, Virginia; and "The New Emphasis," by Elmina Lucke, of Lincoln school, Columbia University.

A round-table discussion on "What Is the Part of the School?" will feature the first part of tomorrow's session at 9 o'clock in the morning. Ralph E. Wager will act as chairman. Second part of tomorrow morning's session will be devoted to group discussions of the progressive education program.

SMITH IS HONORED

Atlantan Given Scroll for
Service on Regents' Board.

A handsome scroll setting forth the board's appreciation of his work while serving as its chairman, was presented to Marion Smith, of Atlanta, yesterday by the board of regents of the University System of Georgia. The presentation on behalf of the regents was made by Dr. S. V. Sanford, chancellor of the system.

Sandy Beaver, of Gainesville, Mr. Smith's successor as board chairman, was head of a special committee which drew up the testimonial.

Mr. Smith served as chairman of the board more than two years. He ended his tenure early this year when he and Governor Talmadge became involved in a controversy over the expenditure of state funds without an appropriation act. The Governor is an ex-officio member of the board which gave the testimonial to Mr. Smith.

JOSEPH ELY WILL AID LONDON IN CAMPAIGN

SPRINGFIELD, Mass., July 16.—(AP)—Joseph B. Ely, former governor of Massachusetts and one of five democrats who jointly opposed President Roosevelt's renomination, threw his support to Alf M. Landon, republican presidential nominee, and hinted he might do some campaign speaking.

Ely talked politics during the day with John D. M. Hamilton, chairman of the republican national committee.

300 Children Enjoy Picnic Despite Rain

Approximately 300 children with full tummies and having a glorious time, and one young fellow beset with chills, was the record made yesterday by one of the largest of the monthly picnics given by Dr. Felton Williams, director of Atlanta's Mission. Shown above, back at the mission headquarters at 125 Ivy street, are, left to right, Dorothy Jenkins, Dr. Williams holding James Maddox, wrapped in blankets after the rain had given him a chill; Virginia Jenkins and Dorothy Cocker. Staff photo by H. J. Slayton.

300 Children Happy Picnic Guests Of Felton Williams, Mission Head

Gathering children from various sections of the city, the Rev. Felton Williams, director of Atlanta's Mission, yesterday morning set out with 300 youngsters on one of the largest picnics yet to be sponsored by the mission and brought them back yesterday afternoon with a minimum of wetting from the rain.

An abundance of watermelon, food and drink was supplied for the picnic by friends of the mission. Transportation to and from the picnic grounds at White's Mill, eight miles from Atlanta, was furnished by an interstate bus line operating in Atlanta.

The children represent the enrollment of Dr. Williams' Sunday school, who are collected in trucks each Sunday morning and taken to various churches. Two new trucks have been donated for the work, Dr. Williams said yesterday, and will make a fleet of four vehicles to be used each Sunday.

Alabama CMTC Camps Shifted to McPherson

Citizens' Military Training Camps scheduled to be established at Fort McClellan, Ala., from July 20 to August 27, have been transferred to Fort McPherson, Ga., it was announced yesterday by Major General Van Horn Mosley, commanding the fourth corps area.

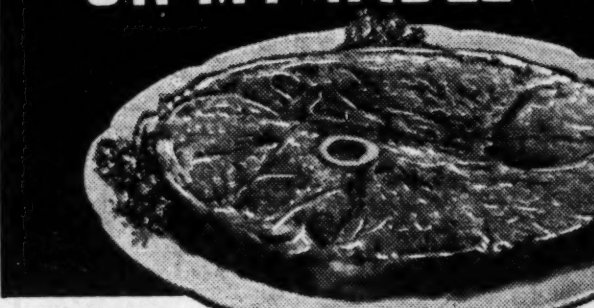

Change was made because of the prevalence of infantile paralysis in Alabama, it was said. No men from Alabama will be ordered to the camp, it was said, but young men from localities free from the epidemic will be eligible.

Result of this order has been to leave 275 vacancies in the camp, for which men from Georgia and Mississippi may apply. Applications should be made to the CMTC Officer, Room 407, Postoffice building, Atlanta.

ATLANTA, GA., JULY 17, 1936.

A \$3,000,000 ASSET

The city zoning commission at its meeting this morning should act favorably upon the petition of Montgomery Ward & Co. for permission to erect a huge commercial emporium on the property facing on Peachtree street north of the Southern railroad, just beyond and across the street from the Peachtree station.

This project involves an expenditure of \$3,000,000 in the development of an establishment that will give employment to hundreds of Atlanta craftsmen during the construction of the huge plant and of nearly 2,000 persons when it is opened for business. Property values in the neighborhood will be enhanced instead of injured.

No property owner on Peachtree, fronting the proposed development, objects to the improvement, nor does the owner of the adjoining property object. The block has definitely ceased to be strictly residential, a number of small store buildings already standing on the site of the proposed improvement.

It is inevitable that, sooner or later, the valuable frontage along the Southern railway tracks will be used for industrial, warehouse or other commercial activities, and the use of this railroad frontage for manufacturing or warehouse purposes would certainly be more objectionable than the proposed improvement, which in itself is not only unobjectionable, but advantageous.

The proposed new building would not even be in sight of the homes of those who ask the zoning commission to reject the petition.

The erection of this splendid establishment will be an important milestone in the city's commercial growth, and the planning commission should not stand in its way.

It is unthinkable that Atlanta, by failing to co-operate with this notable development, should force this great corporation to establish its southeastern headquarters in Birmingham, where strenuous efforts have been made for two years to secure it.

IT CAN BE DONE

The audit of the books of Emanuel county reveals that during the past fiscal year the indebtedness of the county government has been reduced from \$115,884 to less than a thousand dollars.

The showing made by this outstanding Georgia county is all the more remarkable in that the total revenue received during the year, exclusive of highway certificates, was only \$203,650. Thus the debt reduction amounted to more than 50 per cent of the taxes received.

A few weeks ago another Georgia county announced that it would levy no taxes this year, since there was enough money in the treasury to carry the government through. Similar action was taken last year by two or three other counties.

Such examples of businesslike operation of county governments, and intensified effort to make the cost of government as light as possible on the taxpayers, are in sharp contrast to conditions in many Georgia counties, where the deficits are growing and the tax rate is inexorably high.

In submitting his audit of the Emanuel county books, G. R. Austin, Savannah public accountant, comments that the record made by

World's Window

BY PIERRE VAN PAASSEN.

Backview of F. W. Clarke. I was sitting in a little cinema on the Corso in Rome when the projector turned on the actualities of the week and amongst them the arrival of the giant ship-ship Queen Mary in the harbor of New York. I saw the mammoth boat plow through the waves, and then, as she came to anchor, a glimpse of the super-imposed spires, decks, large enough, everyone of them, to hold a mass meeting to protest against the manufacture of corn liquor. The scenes were taken from the air. The photographer got closer and closer and finally swept near the deck. And then, believe it or not, my breath stopped. For there, large as life, wearing a soft, very soft, grey fedora and a grey suit, I discerned the familiar silhouette of Francis W. Clarke, the Mikist of the Constitution's representative on that memorable trip. It was just a glimpse I had of him. But a glimpse was enough. He had his back to the camera and bent slightly over the railing to look at the Manhattan shore line. You will wonder how I could recognize him by his back. I did not. I had seen that back before. I recognized him by the peculiar slant of a large, fresh cigar which he must have just put into his mouth, for it was not lit up yet. I have seen that cigar-slant too often in the days when he told me that a reporter "must have a seeing eye" to make it.

A SUICIDAL POLICY

In his speech at Cartersville Governor Talmadge promised that, if elected to the senate, he would put up a tariff wall so high that it would protect free American labor from the unfair competition of cheap foreign goods.

Approximately one-half of the American cotton crop is used in the mills of this country and the other half is sent abroad. The erection of such a tariff barrier as proposed by Governor Talmadge would have the immediate effect of practically closing foreign markets to American cotton.

The iniquitous, grab-bag Hawley-Smoot tariff act seriously injured the southern cotton producer through the resultant strangling of our export trade.

There immediately followed a huge increase in production of cotton in Brazil, India, Egypt, China and other countries where cotton growing had formerly been more or less experimental, but where, as the result of the Hawley-Smoot tariff, successful competition with American cotton was found possible. Then began the expansion of production that brought the first threat to the dominance of American cotton in world markets.

The result was that American cotton plummeted down to less than 6 cents a pound.

The same thing would happen again under Governor Talmadge's proposal to build another lofty tariff wall around the United States.

Japan is the largest purchaser of American cotton, with Great Britain second. Most of the countries of the world are, under conditions of fair and unrestricted trade, our customers for the fleecy staple.

If these foreign markets are closed to us again, prices will slump to a figure never before reached.

By closing our doors to Japanese imports, we would keep out textile commodities amounting to an infinitesimal per cent of the production of the textile mills of this country, but at the cost of endangering the \$100,000,000 annual purchases of American cotton by Japanese mills.

From August 1 of last year through June of this year we exported 1,463,000 bales of cotton to Japan, for which we received \$93,907,000. The textile imports about which Governor Talmadge is so disturbed amounted in 1935 to only 2 per cent of the commodities the Japanese made out of the cotton bought in the south.

The Japanese products being sold in this country are made not only of cotton, oil, lumber, iron, copper and other materials bought in the United States, but are, to a large degree, manufactured by machinery made in this country. They are taking what they get from the sales of their goods here, adding as much to it, and sending it all back to America each year for the purchase of raw materials and machinery.

If we, enjoying our huge favorable balance of trade with Japan, should build a tariff wall high enough to keep her products out, we can expect the same result as that experienced by Australia when a few months ago it attempted to close its markets to Japanese goods.

Australia's chief product is wool. Japan has been her largest customer. Now the Japanese are buying their wool from South America and New Zealand, and the Australian producers are already in serious condition.

Japan can as easily buy her cotton from Brazil, India and other producing sections as she can her wool in South America—and the cotton growers of Georgia and the rest of the states of the south would soon go broke.

The south has suffered so much from the high tariff policies of the republicans, and their big business allies, that it is astounding that the proposal to again erect the trade barriers which have been destroyed by the democratic administration should come from the governor of one of the largest cotton producing states.

The people of Georgia will think a long time before they agree with this proposal of Governor Talmadge, which would mean the inevitable closing of the markets of the world to our cotton. For the south to take such action would be to sell its birthright for a mess of pottage.

Otto lets it be known for the fifth time that he awaits a call to the Austrian throne. If worst comes to worst he may take up ventriloquism.

Lemke's idea is to talk about money and leave out the personalities, but it won't work. Every household budget debate starts off like that.

World's Window

BY PIERRE VAN PAASSEN.

Backview of F. W. Clarke.

I was sitting in a little cinema on the Corso in Rome when the projector turned on the actualities of the week and amongst them the arrival of the giant ship-ship Queen Mary in the harbor of New York. I saw the mammoth boat plow through the waves, and then, as she came to anchor, a glimpse of the super-imposed spires, decks, large enough, everyone of them, to hold a mass meeting to protest against the manufacture of corn liquor. The scenes were taken from the air. The photographer got closer and closer and finally swept near the deck. And then, believe it or not, my breath stopped. For there, large as life, wearing a soft, very soft, grey fedora and a grey suit, I discerned the familiar silhouette of Francis W. Clarke, the Mikist of the Constitution's representative on that memorable trip. It was just a glimpse I had of him. But a glimpse was enough. He had his back to the camera and bent slightly over the railing to look at the Manhattan shore line. You will wonder how I could recognize him by his back. I did not. I had seen that back before. I recognized him by the peculiar slant of a large, fresh cigar which he must have just put into his mouth, for it was not lit up yet. I have seen that cigar-slant too often in the days when he told me that a reporter "must have a seeing eye" to make it.

And Then, by Gosh!

The newsworld came to an end, like all things in this fleeting world and the screen showed some episodes from the Italo-Ethiopian conflict. One of these episodes was a close-up of Emperor Haile Selassie, and I saw the S. S. Aramis out of Djibouti on the Red Sea. It so happened that I accompanied Mr. Rickett on that trip, and I saw the emperor on board from a war-sloop out of Aden and that there being no one else available I figured in the movie plot as his secretary taking dictation and tapping away at the typewriter. But I did not like the idea of seeing this on an Italian screen and so I quietly left before I saw myself coming into action. It is true, I have seen a revealing cigar, but even so, the idea of being recognized there somehow or other did not appeal to me.

Syria Gains Independence

The French government has decided to propose Syria to the League of Nations, which means that the most advanced Arabic country becomes virtually independent. This leaves only Palestine and Transjordan among the states of the old Turkish empire still under League of Nations mandate. It was thought at the close of the war that the mandatory system would last about a quarter century. The outlook today, however, is not very bright with regard to the Holy Land. The country is in a turmoil from the one side, and the other, and it is not clear whether it will be a part of the new world or a relic of the old.

Nationalize Arm Industry

The new French government has taken the bold step of proposing the taking over by the state of several of the leading armament trusts. The move was inevitable after all the evidence we have had of the war industries working up scares to facilitate the passage of big war budgets in different countries. When you consider that the leading newspapers of Paris are owned by the Comite des Forges, a huge steel and gun-making trust, you realize the danger of the situation. For the temptation must be great to the editors of those journals to present the international situation in a more unfavorable light than it really is, just to stir the government in placing orders for a few more tanks and seventy-five.

Good Morning

BY LOUIE D. NEWTON.

"TRUSTIN' IN DE LAWD"

Have you heard Annie Belle Hunnicutt sing or talk? None of us who heard that interview of Major Bowes and Annie Belle the night she had her try-out can ever forget what she said and how she sang. She is singing this week in one of Atlanta's theaters to the great satisfaction of all who have been fortunate enough to hear her.

You will recall that Annie Belle told Major Bowes that she was "trustin' in de Lawd" to carry her through her try-out. "His is aint' nothin' for me to me, dat'll be all right, I gwine do my best, Major, and trust de Lawd to help me through," she continued. And when Annie Belle told him of her "Little David" play on "Your Harry," she gave this nation a quickened heart-beat. She was singing as only a southern negro can sing. She was singing in the high and low notes of a spiritual, and she was enjoying that sense of liberty which she possessed David himself as he poured out his soul in praise to Almighty God. And she was singing in a way that made you feel that she was really "trustin' in de Lawd." Of course, she was.

Annie Belle works for a neighbor just down the road a half block from our church. I have heard her singing in the yard as she went about her daily work. She is a Christian, a humble, joyful follower of the Lord. He has given her a song in the midst of life's busiest day and He has given her a song at evening time.

My hope is that Annie Belle will go on "trustin' in de Lawd" as these opportunities open to her to sing her songs of simple faith and trust over the radio and in the sound pictures.

Colt Revolvers

Samuel Colt was born in Hartford, Conn., in 1814. He was only a cabin boy on the brig, Carlo on an East India voyage, when, in 1828, he noticed a Britishman swing the wheel, he noticed that each spoke came directly in line with a clutch set to hold it. His imagination replaced the wheel with a cylinder, revolving so that its chambers came successively in line with a gun barrel. By the time the voyage ended he had written out a plan for something he'd need. Four weeks later, as he passed by this store, "Shirt Sale," like a magnet, drew him right in the door. "What a mob," he reported, "but I stayed till I was able to get me a shirt with a known, standard label. Unwrapping his purchase I laughed 'til it hurt—darned if he hadn't bought that same shoddy shirt!"

"First Crusade"

What is known as the First Crusade ended with Jerusalem's capture in 1099, after a siege of five weeks, by an army of 200,000 from many countries, led by Godfrey de Bouillon, a Belgian. He thereupon refused a king's crown, became instead "defender of the Holy Sepulchre." Actually, the first crusade was the "peasant crusade," which represented the first stirring of the common people in European history. (H. G. Wells calls it the birth of democracy.)

NEWS BEHIND THE NEWS

BY PAUL MALLON.

Mr. Mallon starts July 18 on his annual vacation. His daily column will be resumed here Monday, August 3.

UNBALANCED RECOVERY

WASHINGTON, July 16.—The figures now show business is normal, but it obviously is not.

The Federal Reserve Board index of industrial production has hovered on the better side of 100 per cent for the last three months. That is, production has equaled the so-called average years of 1923-25 for such a long period as a quarter-year.

This may seem to be just about perfect to the man in the street, but if he will look into it he will find a great bulk of big industry lagging far behind, building construction at 47 per cent, employment at 86 per cent, car loadings at 70, store sales at 87. As one eminent authority on the subject has said, "no recovery has shown more unevenness, lag and disparity among separate industries than the present."

What has happened is the development of boom business in such things as automobiles and cigarettes, which covers deficiencies in such things as cement and building materials, but the whole does not represent normal or anything like a satisfactory balanced level.

NORMAL

The question troubling economists is what is normal, if anything? The ever-searching Colonel Leonard Ayres, foremost private business economist, has noted that the three years, 1923-25, not only were not normal but were not even average for any period, previous or since. This is an obscure fact, known to all economists, but probably not fully recognized by those who read statistics.

The experts on the Federal Reserve Board are unsurpassed anywhere in their field. They chose 1923-25 as their base period, because they had to have some base and those three years represented an era during which there was no war, drought, depression or boom. There is no other modern base period containing so few unnatural factors.

But if you trail their 100 per cent back to 1899, you will find yourself on a toboggan. Industrial production in 1920 was only 85 per cent of their "normal," 1910 only 60 per cent; 1904 only 47 per cent, and 1899 only 38 per cent. In other words, there never was a real "normal" in this generation.

STRIDE

Colonel Ayres has sought to hit a mathematical normal by striking an average back through these last 37 years. He has drawn a straight line through the Federal Reserve production figures back to 1899 to see where the line would bring him out today. That is, he has averaged 37 years of business progress to find what volume of industrial production would be normal today. He hit 125.

This would indicate the present 100 per cent production is 25 per cent less than what normally would be expected at this time in view of the average progress of the country in this century, the growth of population, the expanded ability of the people to consume. In other words, production will have to improve 25 per cent before it can be said to have "recovered" its stride.

GROWTH

In 1923, the population of the country was 111,537,000. The official estimate for 1935-36 was 127,521,000. Roughly, this amounts to an increase of about 14 per cent since 1923.

If you apply this population increase alone to the FRB production figures, you will glean an indication that 113 per cent would be normal now, instead of 100. But this does not take into consideration the inestimable growth of consumption ability among the people, the fact that they have more automobiles and could use more gas, or that they have radios and electric washing machines and should use more electricity.

When you get into that nebulous field, you can reach the conclusion that Ayres is possibly too conservative. Normal industrial production today would mean an FRB index of about 130. (It was 120 in 1929.)

DEFICIENCIES

Using only the population growth, Ayres computed the deficiency of some of the current economic factors as follows. (He used the April figures of FRB, but the situation was exactly the same in June):

	Per Cent Below Normal
Production	12
Employment	25
Pay Rolls	31
Department Store Sales	28
Freight Loadings	39
Residential Building	74
All Construction	58
Export Trade	48

CONCLUSION

These estimates are all more or less tabs in the shade, if not in the dark. A generally acceptable figure probably will come out of current thought on the subject. Whether the right figure be 113, 125 or 130, there is no question that 100 no longer means normal on the business report card, and the existing perfection is deficient to a deceptive extent.

SILHOUETTES

BY RALPH T. JONES.

Some bread and cheese
And a mug of beer,
With you,
And a car,
And the highway;
Just give me these,
And the sun, my dear,
And a vista free
To the skyway.

Shucks, Man

He's Gotta Put Out.

Gave Flossie, the cook, a couple of tickets to one of the popular picture shows. When you come to think of it, I'm not sure, in appreciation of some extra good croquettes for lunch. And suggested she take the boy friend, next time they were in town. "You don't expect me to give him one of these, does you? When he comes to take me steppin' I spects him to put out. Ef he doan he not talkin' to me."

Phooey

On Such a Job.

Great Britain, Emperor of India and all the rest of it. Maybe we can't wear Scottish kilts on Peachtree street—but on second thought, there's no law against it, is there? We could, at that, if we wish. But who wants to, anyway.

However, as we were saying, maybe we are not the most sought after bachelor in the world—who'd be a bachelor, though? Poor, unlearned and ignorant, Pretending to great feigning, we are the most sought after bachelor who's going to sew the next shirt on a button for them.

Still and all, though creditors hound and self-denial is not a virtue by necessity, we do have to ride at the head of the royal guards while fuzzy whiskered malcontents toss loaded revolvers at us from the sidelines.

No, sir, we are not the most sought after bachelor in the world—who'd be a bachelor, though? Poor, unlearned and ignorant, Pretending to great feigning, we are the most sought after bachelor who's going to sew the next shirt on a button for them.

A Wife, 28 Years

Reveals Hubby's Weakness.

Kate Daniel, writing on the 28th anniversary of her wedding to her perfectly grand husband, Jess, reveals nevertheless, that the man isn't perfect, after all.

Bluntly speaking, Kate's confession is that she has a husband who, while the "best natured man in the world," (the phrase is her own) is, at the same time, a sucker for a sales talk. Kate writes:

"My husband is glibbie, he'll buy what you sell him and this true tale is what really befell him. He entered a store some shopping to do, bought socks, shirts and ties whose trade marks he knew. He beamed as he showed the selections he'd made, which included a shirt with the neckband frayed. I showed him the defect and gladly agreed to exchange it next day. For something he'd need. Four weeks later, as he passed by this store, "Shirt Sale," like a magnet, drew him right in the door. "What a mob," he reported, "but I stayed till I was able to get me a shirt with a known, standard label. Unwrapping his purchase I laughed 'til it hurt—darned if he hadn't bought that same shoddy shirt!"

Popular Place

To Sleep.

Seems that every night, on the lawn of the state capitol at Lincoln, Nebraska, a crowd gathers to sleep. It was estimated at least 8,000 had

FAIR ENOUGH

BY WESTBROOK PEGLER.

Italians NEW YORK, July 16.—They had to re-

to redeem their own shiftness but the American Olympic committee at last came up with sufficient money to send abroad the largest American team of all. The trouble was due to several causes, including, of course, the introduction by the Nazis of politics and religion into a sporting event and inflation of the program. The International Olympic committee made the original mistake. The committee should have taken the games away from Germany as soon as it became obvious that the Nazis had no understanding of the meaning of sport or the purpose of the Olympics. But the international committee is a sort of sporting League of Nations and the boys compromised their ideals to avoid one row, a course which inevitably caused another.

Germany or Italy is fit to run an Olympic show nowadays for sport in both countries is definitely intended to fatten athletes for slaughter in the trenches. Consequently their athletes, steamed up by their hysterical press, make sport in a warlike spirit against enemies not sporting opponents. The Italians, in particular, under Mussolini, are rotten losers. They sent an amateur boxing team to New York a few years ago and kicked up a petulant riot in Madison Square Garden when some little American kid slapped the ears off their flyweight, Edelweiss Rodriguez, and received an expelling order from the judges. Rodriguez flopped on the canvas at the verdict, kicking and squealing like a brat and his trainer waved his arms to the galleries inciting a shower of debris including two open knives.

It should be a pleasure to lick them in sports because they are so childish in their tantrums.

Study

Sportsmanship.

It is hard to believe, but their block a League of Nations loan to the Austrian government because an Austrian soccer team had had the effrontery to fetch the Italian team a swift kick in the pants in a big international game. This isn't sport in the Olympic meaning of the word and the games should have been suspended. The Italian team was expelled from the war, to let the warring athletes cool off and study the ethics of civilized sportsmen.

The Nazis face a delicate problem in the track and field events where the Hitler youth doubtless will be defeated numerous times by a group of American negro boys. When Max Schmeling came over to fight Joe Louis, Hitler, Goebbels and the rest disowned him and his undertaking until he had won. It was then disowned that he had been fighting for Hitler and the Nazi philosophy after all and had proved the racial supremacy of the Hitler youth. It was explained, too, that a Hitler youth naturally could not be beaten by a negro. Perhaps after the negro Olympics of the American team have beaten the Hitler youth in the sprints the Hitler youth will still turn out to be communists at heart.

Just as a friendly suggestion to an embarrassed wonderman, however, Hitler might consider the words of the southern coach whose runners spent a whole afternoon trailing colored runners at a big meet in Franklin field some years ago and said that night over a soothing crowd of hoots that he should look like down home to see his white boys chasing those colored boys out there.

Third Could

Be Left.

Justice for almost a third of the members are mere boon-doggers. The team includes 21 baseball players, whose performance was not too good, a basketball team, an Olympic competition, a field handball team of 15 members, 10 weight-lifters, 10 canoeists and 10 members and a field hockey team of 15.

Baseball is not an international game and even in its native land is so highly professionalized that the amateurs are not even consulted on amendments to the rules of the composition of the standard field. Field handball is a native Nazi sport almost and in this country except to a small hyphenated group, and weight lifting is not a sport but a peculiarity. There is a time and place for everything, including courtship, and canoeing, distinct from the rest of the world, white pants and seclusion.

The field hockey team also seems a bit of a luxury. Our squatter team will fight it out.

Talmude Tales

BY DAVID MORANTZ.

Number 368.

(Based upon the legends and philosophy of the Talmud, which was compiled by the civil and canonical laws and traditions of the Jewish people, dating back as far as 500 years.)

"When preaching fails," says the Talmud, "try ridicule."

"One must not urge his fellow to be a guest, when he knows that he will not accept."

"A man must not offer gifts, knowing they will not be accepted."

"He who cannot bear one word of reproach will have to bear many."

"In proportion to thy efforts will thy recompense."

"He that has one bad sheep in the flock will like all the rest the better for it."

Twenty-Five

Years Ago Today.

From The Constitution of Monday, July 17, 1911.

By appointment of Attorney General Wickersham, J. P. Matheson, the well-known Atlanta orchestra leader and business man, has secured a new position as musical director to the prisoners in the Federal penitentiary.

And Fifty

Years Ago.

From The Constitution of Saturday, July 17, 1886.

"Colonel Richard Malcom Johnston has consented to repeat his lecture and reading, this time for the benefit of the Fifth Baptist church. His admirers will have a chance to hear him in the courthouse Tuesday night next."

Doubling Up.

A company of army recruits had received orders that they would be drilled the next day on how to attack a fortification.

After the company had been dismissed, a big, awkward private approached the corporal in charge of his squad and asked: "What is a fortification?"

The corporal seemed to swell with pride as he replied: "Don't you know any arithmetic at all? Everybody knows that a fortification is nothing more than two twifications."

Woman Pilot.

BARRETT PLAYED FOR BOOK CHARGE

Richmond County Candidate Terms Legislator a 'Talmadge Representative.'

AUGUSTA, Ga., July 16.—(AP)—Lawrence L. Powell, candidate for the legislature from Richmond county, yesterday took sharp and pointed issue with W. K. Barrett, whose seat in the assembly he seeks, regarding the action of both Legislators Barrett and Governor Talmadge on the matter of the textbooks for Georgia's common schools.

Charging Barrett with being a "Talmadge representative," Powell attacked a statement made in the Augusta Chronicle Sunday by Barrett to the effect that the Governor "heartily favored free textbooks."

"The Governor vetoed the Richmond book bill," Powell asserted in a separate statement to the Chronicle, "most unusual way for a Governor heartily favor a bill."

Wilmer D. Lanier, the third member of the Richmond delegation, having been elected to the Chronicle that day, made a statement in the assembly, saying that the delegation from Richmond in the legislature was divided and that one-half of the delegation is in favor of it being vetoed.

OUR CLUB GIRLS SCHEDULE CONTESTS

ATHENS, Ga., July 16.—(AP)—The four club girls will hold district contests the latter part of this month.

Contest dates are: Carrollton, July 20-22; for northwest Georgia, July 23-25; for north Georgia, July 27-29; for southeast Georgia, July 30-31. The southwestern district already has been held at Tifton.

RS. JOSEPH HERRING IS EXPECTED TO DIE

POCOA, Ga., July 16.—(AP)—Medical authorities held little hope today for the recovery of Mrs. Joseph Herring, wife of a retired army officer, who was knocked into insensibility with a garden maul.

Her condition became grave as a result of the attack on her head, with two youths ready charged with the attack on her.

Herring, continued his investigation.

Officials of Georgia Municipal Association

Annual dinner honoring officers and directors of the Georgia Municipal Association was held last night at a downtown hotel. Officers of the organization (left to right, seated) are Mayor James A. Fort, of Americus, first vice president, and Mayor J. D. Ashley, of Valdosta, president. Standing (left to right), are Mayor Zach Arnold, of Fort Gaines, secretary, and E. J. Bass, of East Point, treasurer. Staff photo by Turner Hiers.

Boy Skippers Shoot River Rapids In Frail Craft on Voyage Here

By LEE FUHRMAN.

This is a tale of two boys and two bateaus, lashed together—the bateaus, not the boys—and a 150-mile trek on the Chattahoochee river from Gainesville to Atlanta.

The first day out, however, a kindly "lady fisherman," herself in a small boat, offered the boys a bird-dog as a mascot. The offer was declined with thanks.

"We were afraid he'd eat too much," was the explanation of Josh, who went on to tell how that first day out, when they traveled more than 20 miles, their craft struck a rock and their ax went overboard.

"This meant we had to break wood with our hands, instead of cutting it," said Philip.

The only motive power propelling the craft was the current of the river, which "winds and turns and twists and then winds and turns and twists some more," according to the youthful mariners.

Today they "shove off" again for Columbus.

The second day's run saw them at a point near Norcross, with nothing really eventful to relate. But Wednesday, when thunderstorms broke over Georgia, they had an exciting time of it near the Roswell dam. They slept under an overhanging rock that night.

On the following day, they "shot" the rapids of the river, which called for alertness and skillful steering to prevent striking rocks. Twice they were marooned on rocks, but shoved off with poles carried for such emergency.

Part of their equipment was a rifle and a motion picture camera. They took movies of the rapids trip, but did not use the rifle, and arrived in Atlanta early last night, coming to The Constitution office to relate their journey.

MEDDLING BY STATE WITH CITIES TRAPPED

Reid and Mayor Key Address Georgia Municipal Ass'n Dinner Meet.

State legislatures were rapped last night for not taking action beneficial to municipalities by Ed E. Reid, 26-year-old executive secretary of the Alabama League of Municipalities, before a dinner-meeting of the Georgia Municipal Association. Mayor Key, who presided, also discussed briefly several relationships between state and municipal governments.

Given by the city of Atlanta, the dinner was the highlight yesterday of the mayors' and city managers' annual convention, which will be continued today. It was attended by a number of city officials and councilmen. Dr. Cullen B. Gosnell, of Emory University, the other speaker, discussed the relationship between the university and the state municipal association.

At an earlier session, Miss Gay B. Shepperson, state WPA administrator, and several prominent authorities on municipal questions, addressed the body.

Reid referred to tax evils and then recommended a "home-rule plan." He said it would be "a great benefit if we could divorce municipal activities from state politics." One of the chief reasons for having a "home-rule plan," he said, is that it is the most flexible type of government.

Mayor Key, in a brief talk as toastmaster, referred to the action of taxing city cars while they cars are discharging state functions.

"They're even taxing us for gas at the airport, though out there we are not using the highways," he said.

The mayor said he thought the fines coming from cases made by city officers in state courts should be turned over to the city treasury.

Referring to the state road commission, the mayor said "it did nothing for the city streets, despite the fact the city had turned about \$3,000,000 annually into it, since the commission was organized."

Dr. Gosnell suggested university bureaus which would make a research of municipal government in an impartial manner. He also recommended the Institute of Citizenship as an organization which would "encourage an intelligent knowledge of public affairs."

Miss Shepperson speaks. Speaking at the morning session, Miss Shepperson said that under her administration's new program, eligibility for jobs will depend upon needs and that certification will be made through local welfare officials. The quota for July, she said, is 100,000.

She said 600,000 people participated in the state recreation program during June.

Among other speakers at yesterday's session were Stuart M. Weaver, field consultant of the American Association; Rush Burton, of Lavonia; T. P. Saffold, of Savannah, and W. H. Duckworth, of Cairo.

Today's first session will begin at 10 o'clock at the Ansley hotel.

The late Thomas L. Patterson will go to three Georgia institutions as follows: One-half to Phoebe Putney Memorial hospital here and one-fourth each to the Episcopal Appleton Home and the Methodist Orphans' Home of Macon.

HUNTER IN CHARGE. FORT SCREVEN, Ga., July 16.—(AP)—Major Nathan H. Hunter, of Madison, of the 328th infantry, took command of the C. M. T. C. camp here.

GRiffin HOTEL. GRIFIN, Ga., July 16.—(AP)—The Griffin hotel, an 85-room brick structure, was purchased by H. L. Eskew, who has managed the hotel for several years.

SIX CANDIDATES. GRIFIN, Ga., July 16.—(AP)—Six candidates will seek Spaulding county's two seats in the general assembly in the state-democratic primary. Judge J. J. Flynn qualified for senator. Wiley G. Milam, incumbent, will seek re-election. Other candidates are: Leonard Hightower, W. L. Harris, Judge T. J. Purdy, John H. Rogers and T. E. Strickland.

FITZGERALD REUNION. OMAHA, Ga., July 16.—The annual reunion of the Fitzgerald family will be held Sunday at the home of Mr. and Mrs. E. W. Childs here. Visitors are expected from all parts of the south.

WORK AT SPARTA. SPARTA, Ga., July 16.—(AP)—A crew of highway engineers and other workers assembled here to begin work on the new road between here and Warrenton.

BOLT STUNS SEVERAL. ODOM, Ga., July 16.—(AP)—A lightning bolt knocked one man unconscious and stunned several when it struck a tree in the midst of a crowd watching a free show.

LARSEN NOMINATED. DUBLIN, Ga., July 16.—(AP)—W. W. Larsen Jr., son of the Georgia gubernatorial candidate, became a gubernatorial nominee for representative today. Three candidates, W. A. Dampier, Dawson Kea and E. L. Stephens Jr., qualified for the race for the other Laurens county general assembly seat.

LAFAYETTE POSTOFFICE. WASHINGTON, July 16.—(AP)—The Ray M. Lee Company, of Atlanta, Ga., submitted the low bid on construction of a new postoffice at Lafayette, Ga., the Treasury Department announced. The figure was \$49,750.

"BONUS" FOR TEACHERS. MILLEN, Ga., July 16.—(AP)—"Supplement checks" have been sent to teachers in the city schools. The city board of education, after balancing its books for the year, had \$450 left over. Each check amounted to approximately 40 per cent of a monthly check.

EXERCISES POSTPONED. CAMAK, Ga., July 16.—(AP)—Formal exercises marking completion of a new waterworks system, scheduled for today, have been postponed indefinitely due to the death of B. A. Guill, prominent Camak citizen.

SAVANNAH HONORED. SAVANNAH, Ga., July 16.—(AP)—Arthur J. Downing Jr., of Savannah, received award of a scholarship at Duke University for his junior year.

WINDSTORM DAMAGE. REIDSVILLE, Ga., July 16.—(AP)—A wind storm here blew down several small houses and at least one barn. Part of the Collins and Glennville depot also suffered damage. There were no reported injuries.

French Scholars Are Honored at Emory University

With the close of the first session of the Emory University summer school, the above group were the central figures in an informal meeting of French students yesterday afternoon at the Sigma Chi house, when medals were presented to the outstanding students of the French department. Shown in the picture are, from left, Miss Annie Brown, recipient of the Alliance Francaise medal presented by Charles Loridan, French consul; Mrs. Ruth Hill Bond, "Les Merveilles de la France," given by the French government; Madam Jeannot Chappell, director of the Maison Francaise; Miss Eunice Lawrence, Alliance Francaise medal; and Dean Goodrich C. White, who presented the medals. Back row, Ernest M. Allen, Yorktown medal, donated by the French government; M. Gordon Brown, Republic Francaise medal, given by the French government; and Professor Nolan A. Goodyear, head of the Emory French department. Staff photo by Turner Hiers.

POSTOFFICE CLERKS WILL MEET TODAY

Ramspeck and Deen Will Address Brunswick Convention.

BRUNSWICK, Ga., July 16.—(AP)—The Georgia Federation of Postoffice Clerks will open a two-day convention here tomorrow.

Two congressmen, Robert Ramspeck and Braswell Deen, are on the first day's program. Both will speak at the convention banquet tomorrow night.

The program includes in addition a business session of 10 a. m. tomorrow, group meetings later in the day, and the annual ball at 10 p. m.

Only one business session will be held Saturday, and a sightseeing tour of Brunswick and nearby islands will consume the time of the visitors after the meeting adjourns at 12:30 p. m.

CONVENTION OF A. M. E. IS HELD AT ATHENS

ATHENS, Ga., July 16.—The Athens district Sunday school workers assembled in Greater Bethel A. M. E. church, Rev. G. S. Hardeman, pastor, and Rev. J. W. Langston, president, for the opening of the annual convention.

The opening sermon was delivered by Rev. E. Adams Wednesday, followed by the communion and keynote sermons by Revs. G. S. Hardeman and N. Maddox, pastor of Bethel church, Gainesville.

The convention introduced Dr. D. T. Barlow, president of the Georgia Old-Age Pension Association, and a sightseeing tour of Atlanta, Ga., for the bishopric, and Dr. C. A. Wingfield for the editorship of the Southern Christian Recorder.

Dr. S. D. Downs and B. F. Mosley, of the Rome and Marietta districts, respectively, extended greetings. Dr. W. C. Kelley, presiding elder, Rome district, is assisting in conducting the meeting.

The return of Bishop W. A. Fountain was indorsed and support pledged for another quadrennium as bishop of Georgia.

COMMUNITY CENTER SOUGHT AT AMERICUS

AMERICUS, Ga., July 16.—With 13 organizations represented and 40 persons attending, a community center organization has been formed here with an executive committee of 15, including Harvey Mathis, W. W. Brennan, Sam Dedman, Mrs. Tom Vereen, W. W. Dykes II, Mrs. Henry Clay, Carl Ryals, Charles F. Crist, Will Horne, Luther Ivey, Mrs. Douglas Turner, Shirley Hudson, Roy Johnson, Cooper Bradley and Frank L. Strickland.

H. B. Williams, who spoke briefly at the start of the organization meeting, announced that 10 acres of land had been deeded to the city for a site. Funds for building the clubhouse and landscaping will be sought from Works Progress Administration.

5 ATLANTANS TO GET RESERVE COMMISSIONS

FORT BENNING, Ga., July 16.—(AP)—Twenty-six R. O. T. C. students—five Atlantans among them—will receive commissions tomorrow in the Officers Reserve Corps.

The graduating students are part of a class of almost 400 who have been in training here since June 7. The Atlantans in the class are Roy Gaskins, Frank M. Volberg and Joseph E. Walthall Jr., field artillery, and Thomas S. Pryor and Lury B. Redmond, signals corps.

Lieutenant Colonel Maurice D. Welty, assistant executive officer of the infantry school, will present the certificates.

STATE DEATHS

MRS. MELLIE LOGAN. ATHENS, Ga., July 16.—The body of Mrs. Mellie Logan, widow of the late George F. Logan, of Athens, who died Monday at Barbours, Ohio, has been sent here for burial.

MRS. VERA WATERS. ROME, Ga., July 16.—Mrs. Vera Waters, 28, died Tuesday at Millidgeville, N. C. Miss Vera Goddard, who was born and reared in Rome, where she resided until her illness. Funeral services were held here Thursday afternoon.

MRS. GEORGIA INGRAM. BRUNSWICK, Ga., July 16.—Mrs. Georgia Ingram, 92, a former resident of Brunswick and St. Simon's Island and one of the oldest residents of this section, died last night at Brunswick, Ga. Burial will be in Frederica cemetery, St. Simon's Island, Friday afternoon.

MRS. TOM TAYLOR. NEWNAN, Ga., July 16.—Funeral services for Mrs. Tom Taylor were held from the residence here Wednesday afternoon. Mrs. Taylor, 56, died at her residence here Monday.

Quicker Easy Corn Removal

Remove corn professional way, roots and all, in 10 minutes with Corn-Fix. First drop stops pain. Horn-like tissue separates and you peel corn right out easily. Blisters, callouses, too. Guaranteed.

Speaker Rivers Promises To Place Old Age Pensions Before Voters

ALBANY, Ga., July 16.—Speaker E. D. Rivers of the house of representatives, in a campaign speech here today, said that if he is nominated for governor in September he will see to it that the people of Georgia get to vote on old-age pensions in November.

"even if we have to advertise the amendment in the newspapers to get it before the people," he declared.

Speaking in behalf of his candidacy before a crowd assembled here to listen to the opening address of DeLacey Allen, of this city, a candidate for lieutenant governor, Rivers said that the Georgia Old-Age Pension Association, an organization he sponsored, hopes to have each ordinary in the state put the old-age pension amendment on the county ballots in November but added if they do not, he will have it advertised in the official county paper and furnish each voter with a copy of the advertisement.

"The constitution of the state says that the amendment must be advertised but it does not say who must do the advertising," the speaker asserted. "If the Georgia Old-Age Pension Association cannot get the ordinances to put it on the ballot I am going to see to it that the voters have copies of the amendment and they can vote on it."

Speaker Rivers said he had discussed this plan with a number of judges and added that he believed the courts would approve an amendment voted in this fashion.

"It is going to an extreme to get the amendment adopted but the way we are being blocked by the present administration in Atlanta warrants us in trying it," he said.

Mr. Bouhan declared that a full working organization, in support of Speaker Rivers will be put forward at once and added that he expected the candidate to carry Chatham and surrounding counties by handsome majorities.

The meeting here was presided over by James Kennedy.

RIVERS CLUB FORMED IN CHATHAM COUNTY

SAVANNAH, Ga., July 16.—John J. Bouhan, county attorney and law partner of Senator David S. Atkinson, of this city, has been named chairman of the Chatham County Rivers Club for Governor Club, it was announced here today following a meeting of Rivers supporters.

Mr. Bouhan declared that a full working organization, in support of Speaker Rivers will be put forward at once and added that he expected the candidate to carry Chatham and surrounding counties by handsome majorities.

The meeting here was presided over by James Kennedy.

For refreshing energy Schlitz

the beer with Sunshine VITAMIN-D

A BAT cracks... a ball sings... and high in the air a shortstop leaps to make the catch.

It took extra energy to make that play... the kind of reserve energy that is brought to you in sparkling, invigorating SCHLITZ—the beer with Sunshine VITAMIN D.

This precious element of buoyancy and invigoration adds more lasting benefits—gives new meaning to summer refreshment!

Modern living; clothing; hours spent indoors or in the shade—rob us of sunshine benefits even in mid-summer. SCHLITZ in brown bottles or cans gives you the Sunshine VITAMIN D so important to health and vigor—plus the tasty, old-time SCHLITZ flavor and bouquet safeguarded by PRECISE ENZYME CONTROL—and at no increase in price.

Enjoy SCHLITZ every day—a cooling, refreshing toast to health.

* Each 12-ounce bottle or can of SCHLITZ contains 100 U. S. P. X. Units of Sunshine Vitamin D.

SCHLITZ brewer's yeast contains the pro-vitamin D which is activated directly by the ultra-violet rays of the sun to form Vitamin D. (Protected by U. S. Letters Patent.)

The Beer That Made Milwaukee Famous

CENSURE IS EXPECTED IN PROBE OF 'G-MEN'

Agents Criticized for Alleged Investigations of Department of Justice.

WASHINGTON, July 16.—(AP)—Secret service men who were reported to have investigated Justice Department agents' activities in tracking down western "public enemies," were ordered to Washington tonight, where they face possible strong disciplinary action.

Treasury officials indicated they were prepared to take action against the men if the reports proved correct and Attorney General Cummings insisted on drastic penalties.

W. H. McReynolds, assistant to Secretary Morgenthau, of the treasury, told reporters he had heard that secret service men in St. Paul had made an unauthorized inquiry into the shooting of Eddie Green, Dillinger gangster, by justice agents.

St. Paul Agent Called. Ordered to Washington for questioning, according to treasury officials, were Joseph Murphy, assistant chief of the secret service; Grady L. Boatwright, agent in charge at St. Paul, and others.

Attorney General Cummings, who said yesterday he had a "suspicion" that secret service public enemies, engaged in "ill-advised activity," refused to discuss today's developments. J. Edgar Hoover, head of the justice department, was silent.

McReynolds talked with Murphy in Los Angeles by telephone today, and then told reporters:

"Murphy was horrified to learn that anything he might have said had been misconstrued by the agents."

"Anything that was done by these agents was without our knowledge and permission. Apparently it was just curiosity on the part of several of the men. The secret service has no authority whatever to be engaging in such investigations."

Moran Ignorant. Treasury officials said W. H. Moran, chief of the secret service, knew nothing of the investigation by his men and reiterated that any such investigation was made by secret service men "solely on their own responsibility."

"No treasury agency is privileged to investigate the activities of another department," McReynolds said. "That isn't our business."

McReynolds added that if the reported incidents proved true, apologies would be made to the justice department. Some justice department officials indicated that apologies alone would not satisfy them.

NEW TIFTON BANK

TIFTON, Ga., July 16.—(AP)—Application for incorporation of the Tifton State Bank has been filed with Secretary of State John B. Wilson. The petition was filed by Joseph Kent Sr., Amory Mellen, J. E. Holmes and Marion C. Holmes, of Tifton, and J. Strozier Harris, of Moultrie. Initial capital stock of the bank would be \$50,000.

RIGHTISTS ARE SEIZED AS SPAIN QUELLS RIOTS

23 Persons Slain, 68 Injured
in Two Weeks of Disorder.

MADRID, July 16.—(AP)—Spain, counting between 200 and 300 dead and perhaps 1,000 wounded in five months of recurring disorder, rounded up hundreds of fascists today in an atmosphere of comparative peace.

Extreme rightists and subchiefs were seized throughout the country to head off further political bloodshed as followed the assassination early this week of Jose Calvo Sotelo, monarchist leader.

Arms and ammunition were seized in large quantities. Several guards were wounded in a fight with a group of suspects.

In the last two weeks 23 persons have lost their lives and 68 have been wounded.

ATLANTA THEATER NEWS

'San Francisco' Is Held Third Week at Grand

Establishing a record at Loew's Grand theater, "San Francisco" starts its third week at that house today. Certainly one of the year's outstanding film entertainments, it has enjoyed extraordinary public approval which justifies its retention for a third week. Directed by W. S. Van Dyke, who made "Trader Horn," "The Thin Man" and "Naughty Rhythm," this rich and varied drama reaches an overwhelming climax in scenes which duplicate the San Francisco earthquake and fire, showing the whole city crumbling to ruins, taking a loss of many hundreds of lives. "San Francisco" boasts an extraordinary cast. Clark Gable, Jeanette MacDonald, Spencer Tracy, Jack Holt, Ted Healy and Jessie Ralph give performances which are distinct credits to them and lend much to the realism of the story of the Barbary Coast.

Miss MacDonald finds in this production her richest opportunity to display the variety of her voice. She is heard singing hymns, popular ballads in a cabaret, and brilliant operatic numbers. As Blackie Norton, operator of the gambling house and cabaret where Miss MacDonald works, Clark Gable finds one of his most congenial and appealing roles—romantic, dashing and audacious. Spencer Tracy as Father Mullin, operator of a mission in the Barbary Coast, adds greatly to his screen popularity as a wise and understanding priest. Jack Holt has a strong role as the wealthy San Francisco landlord and opera patron who undertakes to sponsor Miss MacDonald's musical career.

'Crime of Dr. Forbes' Opens at Paramount

A startling drama, based on a theme that made screaming headlines in the newspapers recently, comes to the Paramount theater today in "The Crime of Dr. Forbes." Two astounding confessions that split a stunned world into angry, arguing factions highlight this strange story of a physician who apparently violates his most sacred oath. Gloria Stuart, Robert Kent, Henry Armetta, J. Edward Bromberg, Jack Haden and Alan Dinehart head the cast of this front-page drama, and their exceptional performances enhance the tension and suspense that exists throughout, reaching a climax in the totally unexpected denouement. A noted physician seeking a cure for a fatal spinal disease, hears of

him that he lets her stay with his other children.

Jack Haley and Alice Faye, an out-of-work vaudeville team, notice Shirley singing and dancing. Haley is inspired with the thought she is just what the act needs and despite Miss Faye's protestations, she is taken into the act. The trio are successful in a radio audition and are hired by Claude Gilliland.

Whalen has met Gloria Stuart and the two have fallen in love. She persuades Whalen to listen to Gilliland's new radio program and he is astounded to recognize Shirley's voice coming over the air. Other complications enter the plot and there's a whirlwind of exciting events before the thrilling climax is reached.

Shirley is said to perform astonishing dances that top everything she has ever done before and she sings five new songs including "When I'm With You," "But Definitely," "You Gotta Eat Your Spinach," "Oh, My Goodness" and "Military Man." Darryl F. Zanuck selected Irving Cummings as director and B. G. DeSylva as musical producer.

'Poor Little Rich Girl' At Fox With Shirley

Shirley Temple in "The Poor Little Rich Girl" opens today at the Fox theater.

The talented Temple miss is surrounded by a veritable gallery of Hollywood stars, including Alice Faye, Gloria Stuart, Jack Haley and Michael Whalen.

A modern, stirring, romantic story and five new songs hits by Mack Gordon and Harry Revel also add to the enjoyment of "The Poor Little Rich Girl."

Shirley is seen as the daughter of Michael Whalen, a wealthy young businessman who is far too occupied making money to devote much time to his daughter.

Shirley persuades her daddy she should be sent to a boarding school. Whalen agrees, but instead of attending to the task himself delegates Sara Haden to accompany her to the school. Waiting for the train, Shirley wanders off. The busy sidewalks of New York lure her on to adventure.

She is entranced by Tony, the organ grinder, and follows him to his home. Tony already has a large family but the new "babina" so wins

him that he lets her stay with his other children.

the discovery in Arizona of prehistoric skeletons that bear unmistakable evidence of the ancient. Believing they may possibly help in his research work, he departs for the scene of the excavation leaving his laboratory—and his pretty young wife in the charge of Dr. Forbes.

Forbes and the doctor's lovely wife find themselves mutually attracted and inescapably they fall in love. Suddenly word comes that the husband has been seriously injured in a mine cave-in. The two rush to the scene and find the injured enduring harrowing pain, made more unbearable by the realization that it cannot be cured. Facing days of endless torture, he can only wait for death to release him. Suddenly he dies—and the swift death prompts an investigation which reveals that he was murdered by an over-dose of poison. Is it suicide or murder—or compassion?

Shirley is said to perform astonishing dances that top everything she has ever done before and she sings five new songs including "When I'm With You," "But Definitely," "You Gotta Eat Your Spinach," "Oh, My Goodness" and "Military Man." Darryl F. Zanuck selected Irving Cummings as director and B. G. DeSylva as musical producer.

Whalen has met Gloria Stuart and the two have fallen in love. She persuades Whalen to listen to Gilliland's new radio program and he is astounded to recognize Shirley's voice coming over the air. Other complications enter the plot and there's a whirlwind of exciting events before the thrilling climax is reached.

him that he lets her stay with his other children.

Jack Haley and Alice Faye, an out-of-work vaudeville team, notice Shirley singing and dancing. Haley is inspired with the thought she is just what the act needs and despite Miss Faye's protestations, she is taken into the act. The trio are successful in a radio audition and are hired by Claude Gilliland.

DARD TO VOTE TODAY ON RE-ZONING PERMIT

Continued From First Page.

out of the city at present, asking for permission to support the plan and said he hoped to have definite commitments before the commission meeting today.

Mr. and Mrs. A. J. Collier, who own several tracts in the area which would be improved by the zoning, officially notified the commission they approve it and hope the zoning will be allowed.

In addition to Kurtz and McNeal, for Key, Clarke Donaldson, chief construction, Mrs. J. P. Billups, former Frank H. Reynolds, A. C. Shorn, Dr. A. C. Ayers and Robert Lose are members of the commission.

McNeal asserted he believes the commission should act favorably on the proposal.

Bigger Than Sectionalism. "Everyone who knows me, is cognizant of the fact that I have fought for development of the south side of Atlanta," he said yesterday.

"This thing, however, is bigger than one section. It was pointed out to me that if the north side petition is turned down, the merchandising use might be located on the south side of the city and I was asked to go against it."

Mr. attitude is that the company would have some right in selection of a place in which to do business, is undertaking a civic improvement, it will be a huge asset to the city and commercial life of the community. It will provide jobs for hundreds of workmen, both skilled and unskilled, during its construction, when completed, about 2,000 persons will be employed, coming largely from local ranks.

Cannot Afford to Bicker. "We cannot afford to bicker about a thing. It is important, Atlanta

should co-operate more than 100 percent to get Montgomery Ward & Co. to locate here.

"This company has asked to be allowed to become a definite and integral part of our community. It seeks to locate entirely within the limits of Atlanta, to pay all city taxes required of it, as other enterprises located within the city do, and to become a real tangible civic and business asset."

"I cannot conceive how we as citizens, interested in the future development and prosperity of the city, could do a single thing which would jeopardize the erection and operation of this plant. I am for it even though it is not located on the south side of Atlanta."

Right of Opposition. "I have no quarrel with those who oppose the petition. That is their right and if they think it would not be a civic and commercial asset, it is their duty to do so. I do, however, want to make this suggestion: 'Most of this property lying along the railroad already is zoned for industrial use. If we block this improvement, what would prevent someone from utilizing the portion thus zoned for something objectionable and even obnoxious?'"

"A fertilizer plant might even be placed here. And if Montgomery Ward wished to locate a little farther out, it could do so without asking the permission of the city, because it would be outside the city limits."

It was pointed out yesterday that a large portion of those who opposed the rezoning at the public hearing, live outside the city limits and have no just cause in the planning commission or council in their move to block the development.

Big Area Waterless FROM BURSTING MAIN

Continued From First Page.

up, thinking their water service had been discontinued.

Fire Chief Worried. Chief O. J. Parker, of the fire department, spent several anxious hours while the water pressure and supply was at a low ebb. He arrived at the scene of the break about the same time Smith came up.

After a hurried conference, he appeared reassured and said the fire department would be able to cope with any small blaze, but, if a real fire started, the department might have real difficulty. None began, however.

"We have our chemicals and, in addition, we carry from 75 to 80 gallons of water on our pumps," Parker told Smith.

"We'll have water back in the entire area, except this short stretch, within 45 minutes," Smith answered.

Paving Wrecked. About \$1,000 worth of paving was literally wrecked by the break.

The 36-inch main also looped with a 30-inch pipe through the center of

the city, which accounted for interruption of water service in that section. It also had a cross connection with a 16-inch main through North avenue, and another cross connection with a 20-inch main through Cain street.

Valves Closed. Valves were closed above and below the break, and work of repairing the damage was begun without any delay.

The water then was turned into the main and connecting mains to restore service.

Smith said the broken main was laid in 1912 with funds provided by the 1910 bond issue for water works improvements.

He warned that the local water supply may be discolored for the next few hours because of a back wash, but added that the water is pure and no one need be apprehensive of its safety.

HARTSFIELD ENTERS RACE FOR MAYORALTY

Continued From First Page.

total paid as entrance fees in the past two days was pushed to \$4,055.

Following is Hartsfield's statement: "The present administration is backing a complete slate of candidates all the way down to city executive committee. I understand they will persuade another candidate to get in the mayor's race before the entries close."

"They can drag in all the other issues they want to, but the real issue is going to be whether the people want a town controlled by the underworld and crooked police politicians, or whether they want the better element in charge."

WOMAN FOILS ATTEMPT ON KING EDWARD'S LIFE

Continued From First Page.

Wellington Arch, the object of hundreds of eyes, a stocky man limped swiftly through the ranks of spectators and police at the edge of the roadway.

The king straightened in his saddle. He looked intently to the left. His horse quivered visibly, its ears twitched.

A little, unidentified woman, dressed in gray and accompanied by a fair-haired girl, aimed the would-be assassin's arm and the gun clattered to the ground near the monarch's horse.

Soldiers and police rushed forward. A number of women in the crowd screamed. Several fainted.

The king, seemingly the coolest person in the whole nation, rode on to the palace, saluted Queen Mary, who was then standing on a balcony, and vanished in the inner courtyard.

Later he motored to St. James' palace, had luncheon, rode to his

country home in Fort Belvedere for a round of golf at Coombe Hill and returned to St. James' in the evening to transact business of state.

McMahon, pounced upon by branny figures before a mounted policeman could spur across the road and pick up the weapon, was hustled to Bow Street station.

A solicitor representing McMahon said the prisoner wished to insist he did not intend assassination. And Inspector Sands asserted he asked: "The king wasn't hurt in any way, was he?"

"The woman in gray" and the slender girl who was with her were hustled away from Constitution Hill in a police-guarded motor car just after McMahon was seized. Crowds cheered, but the couple bent down modestly, hiding their faces.

POLICE HAD INKLING OF ATTACK ON KING. LONDON, July 16.—(UP)—Police knew in advance that Andrew McMahon intended to make trouble while King Edward VIII led 6,000 of his crack guardsmen on parade today.

McMahon, the Irishman who brandished a revolver at his majesty, lived in the basement of a large house in Westbourne Terrace, Paddington, a district of London.

Normally he left his home at 8:45 a. m. daily but today he left at 6:45. At 8 a. m. two detectives arrived and watched the house from the end of the street until 9 a. m. It was 12:21 p. m. when McMahon attempted to shoot the king. The presence of the detectives was evidence that the police had an inkling of impending trouble. They looked McMahon's house this afternoon.

THEATERGOERS CHEER KING. LONDON, July 16.—(AP)—Audiences and casts of a half-dozen theaters joined tonight in singing "God Save the King" before the performances started. Racegoers at Newmarket cheered the king after his horse, Feola, won the midsummer stakes.

Princess Marie Louise, cousin of the king, visited a newsworld theater to view scenes of the parade, including 200 feet of film showing the crowd after the incident on Constitution Hill.

She was accompanied by Viscount and Lady Eltham. The audience stood and sang the national anthem.

U. S. COURT REFUSES TO PASS ON LABOR ACT

ST. PAUL, July 16.—(AP)—United States District Judge M. M. Joyce late today refused to pass on the constitutionality of the Wagner labor act and denied Wilson & Company, with a packing plant at Albert Lea, Minn., a restraining order against the National Labor Relations Board.

The packing company asked for an order to restrain the labor board from holding hearings on the demands of the Independent Union of All Workers that Elmer Wenzel be reinstated in his employment, and also requested a declaratory judgment that the Wagner act is unconstitutional.

RECORD MILK PRICES ARE PROSPECT HERE

Continued From First Page.

down and completely ruined the field. Atlanta dairymen declared no matter how steady rains may be from now until harvest time milk prices "must go up."

There will be a shortage in feeds under any circumstance this year, they said, and they will be forced to buy feedstuffs at high prices.

Most of the dealers said they could operate under present prices for a time, but some declared a rise in price would be necessary almost immediately if a loss is to be avoided.

Only one organization, a co-operative milk buying group, reported their prices are likely to remain the same for some time. The group is operating on a wide margin, it was said, and drastic price hikes by their producers would have to be made before it would affect the consumer.

IOWA U. S. SENATOR KILLED IN ACCIDENT

Continued From First Page.

among members of the present United States senate. He was the second Iowa member of congress to die in recent years. Representative B. M. Jacobsen succumbed recently at Rochester, Minn.

Murphy, a democrat, had little practical political experience when he was elected to the senate in 1932, although he had served for eight years as collector of internal revenue for Iowa.

Son of a newspaper editor, he took over active management of the Dubuque Telegraph-Herald at the age of 26. In 1920 he became tax consultant and started an outdoor advertising business.

In his election to the senate he defeated Henry Field, republican, and former Senator Smith W. Brookhart, independent.

As senator, Murphy was one of the strongest supporters of the administration's agricultural policies, and

Killed in Accident

SENATOR LOUIS MURPHY.

was one of the original proponents of the corn loan farm aid plan. In Des Moines, the attorney general's office said the vacancy caused by Murphy's death must be filled at the general election in November. He had two years yet to serve, and his successor will be elected for that period.

POCKETBOOK STOLEN FROM SOLDIERS' HOME

Theft of a pocketbook containing \$5 at the Confederate Soldiers' Home was reported to police yesterday by Mrs. A. T. Scoggins, of 174 Georgia avenue.

Mrs. Scoggins left the pocketbook in the reception room while having lunch with her husband, who lives at the home. When she returned, the purse was gone.

COURT REVERSAL ASKED.

CINCINNATI, Ohio, July 16.—(AP)—Aaron Julius Blevins, Tennessee farmer, asked the United States circuit court of appeals today to reverse a Knoxville, Tenn., federal court order holding invalid the new Fraser-Lemke amendment to the national bankruptcy act.

PARTYING MOTHER GIVEN SENTENCE

She Chained One Son to the Floor All Day Without Food.

PHILADELPHIA, July 16.—(AP)—Mrs. Marion Shanks, 29, admitted today she imprisoned two of her sons for a day while she went to a party, and was sentenced to an indefinite term in the state industrial home for women.

The two children, John, 4, and Charles, 2, were found last Thursday locked in a bedroom. John was fastened with a dog collar and rope to a staple in the floor. Charles was in a crib which was nailed to the floor. Police said a wire-covered window, opened a little more than an inch, was the only ventilation in the barren room. Temperatures ranged above 100 outside and the children had neither food nor water.

The two boys and a third child were given into the custody of a child welfare society. A fourth child, Margaret, 8, was placed in the care of Mrs. Shanks' mother, who asked the court to order sterilization of her daughter.

WOMAN, 70, HELD ON \$20,000 BOND

Pleads Guilty to Possession of Illegal Whisky Still.

TALLAHASSEE, Fla., July 16.—(AP)—Seventy-year-old Mrs. Hedassan Bradwell entered a plea of guilty today when federal agents arraigned her on a charge of possessing an illegal whisky still. Her bond was fixed at \$20,000.

Mrs. Bradwell's two sons, Carl and Clinch, are held on similar charges, with bond for each fixed at \$20,000 by United States Commissioner Raymond B. Marsh.

Federal officers said they found a still on the Bradwell farm and later

located 1,900 gallons of untaxed whisky in Carl Bradwell's barn.

The arrests resulted as federal and state officers sought clues that would establish identity of a person who shot and killed John W. Morgan, state beverage department inspector, at the Bradwell farm in Liberty county last Saturday. The Bradwells said they had no knowledge of who fired the shot.

Clinch Bradwell, arrested by George A. L. Cook, federal alcohol agent, was being guarded by Morgan when the officer was shot in the back. The state has offered a \$500 reward for Morgan's slayer.

Charlie Black Jr. Is Last Veteran To Fall From State Meet

Last night a ship stood out to the open sea from New York harbor—for England.

And in a stateroom was an Atlanta lawyer. The headlines paid him little attention in 1921 when he boarded a ship for England. He lost in the fourth round of the amateur and did not finish in the open.

The headlines screamed with big black type in 1926. He had not meant to go to England that year. But something impelled him. He had lost in the finals of the American amateur to George Von Elm. (Whatever has become of George Von Elm?) They screamed some more when he came home with the British open title.

The photographers swarmed about and the headlines were large and black when he sailed in 1927—to win the British open again.

And in 1930 they fairly outdid themselves—he was going to win the British amateur and the open. And he did. (And he won the American open and amateur, too. Thirteen major championships in 11 years.)

He liked all that. Who wouldn't have? But he did not like the strain of it, the hurry of it, the drama of it.

And last night Bobby Jones sailed for England as he always wanted to sail—quietly, with no friends about him and no pressure on them to worry about him and his game of golf, and with a set of clubs along.

Because this time he's going to see England and to play a little casual golf—at St. Andrews, where the caddies worship him—at Hoylake and Muirfield—if there's time.

This will be golf where a missed putt isn't a tragedy to make the gallery shiver with fear. This will be golf where a hooked drive isn't something to be put on the cable wire and sent to a thousand newspapers for printers to put into metal and later to be put into print. He may even play a round with the King of England—think that is likely to be on the program. But it is to be fun.

And then there will be a sight-seeing trip or so—the Olympic games at Berlin—a trip on the Rhine. He's been across so many times and seen nothing but golf courses and the tramping horde of spectators and trains and ships.

This sailing last night was one of the things he meant in 1930 when—after winning all four major golf titles—he retired, saying he wanted to have some fun with golf and his life.

Bobby Jones is going to England for the first time. Before it was Bobby Jones—the golfer.

THE ODDS ARE SEVEN TO ONE.

The odds are seven to one in favor of an Atlanta state golf champion.

But young Jim Dudley, of Athens, can lower those odds very quickly with a victory today. By two victories he can reduce the odds to even all.

Before the rains came yesterday the state tournament had advanced to the quarter-final stage with seven Atlantans left. And only Jim Dudley, the Athenian, representing the remainder of the state.

The morning matches today will reduce the field to four.

Continued on Page 12.

Yates, Rainwater Eliminated From Western Meet

JOHNNY LEHMAN DEFEATS CHAMP IN SECOND ROUND

Munger Drops Rainwater From Meet, 1 Up, in Great Match.

OMAHA, Neb., July 16.—(AP)—At the Omaha representation in the western amateur golf championship tournament, 1935 Champion Charlie Yates and Crawford Rainwater, were crowded out of action today, but only after spectacular battles.

After defeating Gene Milbourne, of Omaha, 4 and 3, in his first-round match, Yates bowed to some super-heated shooting by Johnny Lehman, of Chicago, 2 and 1. Rainwater, playing at top form, was not quite good enough to overcome Jack Munger, of Dallas, Texas, the southern amateur titleholder and succumbed on the final hole.

Against Lehman, Yates was only one stroke over par for 17 holes, but his shooting availed him nothing in the face of the Chicagoan's three under par blast. Lehman was 1 up at the turn, coming back after Charlie had won the first hole with a birdie 5, and fired three birdies at the Georgian on the back nine to sew up the decision.

Yates was four under par for the 15 holes devoted to eliminating Milbourne. He was even with par on every hole except four, the first, eighth, 12th and 15th, and on those scored the birdies that gave him his margin over regulation figures.

Rainwater made a grand uphill fight after losing an early advantage, and a 10-foot putt on the 18th green that hung on the edge of the can, kept him from prolonging the battle.

The husky Georgian won the first hole with a birdie 3 but dropped back when he needed a 5 on the third where Munger got his regulation 4. The Texan went 2 up with birdies on the seventh and eighth holes, but Rainwater got one hole back when Munger took a 5 on the par 4 ninth.

A par 3 while Munger was taking a 4 on the 11th squared it, but Yates regained his advantage with a birdie 4 on the 12th. It was square again when Munger took a 5 on the par 3 14th and remained even until the final hole when Rainwater's putt refused to drop.

Goodman Beaten By Freddie Haas

OMAHA, Neb., July 16.—(AP)—Comeback-bound Johnny Lehman, of Chicago, and slender Freddie Haas Jr., of New Orleans, completed the rout of the Walker cup delegation in the 37th annual western amateur golf tournament today by brilliantly fashioned triumphs over Charlie Yates, of Atlanta, Ga., and Omaha's Johnny Goodman.

Tall Johnny, who won the 1932 western crown, but who has done little of note in championship golfing warfare for the last few years, took the blood, smiling defending champion, Yates, out of action in their second-round battle by a 2-and-1 margin over the Happy Hollow Club's parched course.

Haas, overlooked when the United States Walker cup force was selected last spring, swung his clubs for a rousing 34-59—69, three under orthodox figures, to conquer Goodman, Dulles, copper, former national open champion and the tournament favorite, one up on the final hole of another second-round tussle. Goodman, one down at the turn, fought his way back to even terms, but faltered on the final hole.

The third member of the cup squad, Oklahoma City's Walter Emery, failed to qualify for the quarter-final division of the tournament, winding up yesterday with 75-78-153.

The day also brought defeat to the medalist, Matt Zadzalis, the Omaha public park employee, who, inched the layout with a pair of 69's for a 138 total. Zadzalis held another Omaha player, Bob Fraser, even for nine holes, but lost his magic touch with iron clubs on the return journey and bowed, 3 and 2, in the first round.

Grid Officials Meet Sept. 5-7

COLUMBIA, S. C., July 16.—(AP)—The men in white who officiate at Dixie's college football games will meet here September 5-7 to decide what's what in Southern and Southeastern conference rules.

The annual setting of the Southern Football Officials' Association will bring together the headlinesmen, field judges, umpires, referees and coaches for a clinical discussion of the pigskin game.

Separate "schools" will be held for the headlinesmen, the field judges, the umpires and the referees. The mechanics of officiating will be a part of the instructions in each classroom.

"Granting that this meeting plan is experimental," said Arthur R. Hutchens, secretary of the Southern Football Officials' Association, "I believe it has promise of success and distinguishes a decidedly progressive attitude toward the development of fine officiating."

It's always fair weather! Keep cool and get good food together at **ROBERT FULTON Coffee Shop** Corner Cone and Luckie Sts. Air Conditioned—just right

GILLESPIE FACES DON BUFFINGTON IN CITY TOURNEY

All Matches Rained Out Thursday; Boland Meets Tom Tumlin.

The young stars will have their day at the Biltmore Tennis Club this afternoon at 4 o'clock as Don Buffington and Billy Gillespie, both 15, will engage in what promises to be the most interesting and hard-fought match of the day's third-round matches in the city net meet.

Gillespie, who played No. 2 for Boys' High this year, following directly behind Russell Hobbit, reached the finals of the southern prep tournament this year by upsetting Bobbitt.

He was also runner-up in the junior division of the southern.

Buffington, runner-up in the boy's division of the southern, has played little here this year, but his coaching under Dr. Dean McCluskey in New York has done his game no end of good.

Malcolm Courts, defending champion, faces Molly Williamson at 3 o'clock this afternoon. Dr. Kels Boland, second seeded, is scheduled to meet Tom Tumlin at 2 o'clock.

In the doubles division Marion Reese and Malcolm Manley will face Tom Tumlin and Bud Lindsay. All matches yesterday were rained out.

Admission for the feature matches at the exhibition courts is 25 cents.

EXHIBITION COURTS.

Glenn Dudley vs. William Armstrong, 2 o'clock.

Dr. Kels Boland vs. Tom Tumlin, 2 o'clock.

Malcolm Courts vs. Molly Williamson, 3 o'clock.

Marion Reese-Malcolm Manley vs. Tom Tumlin-Bud Lindsay, 3 o'clock.

Billy Gillespie vs. Don Buffington, 4 o'clock.

Fred Chambers vs. Reg. Fleet, 4 o'clock.

Bud Lindsay meets winner of Z. A. Rice-Jimmie Halverstadt, 5:30 o'clock.

Red Enloe meets winner of Armstrong-Dudley, 6 o'clock.

NEW BILTMORE COURT.

On North Avenue Between Juniper and Piedmont.

Gladya Vallebona vs. Faust Caldwell, 3 o'clock.

Kate Jackson vs. Marjory Hollingsworth, 3 o'clock.

Louise Fowler vs. Dot Pennington, 3:30 o'clock.

Ruth Dearyburg vs. Mildred Jaffara, 4 o'clock.

Donald Elkins vs. Ben Hargrove, 4:30 o'clock.

Universalist-Courts vs. Hedekio-Armstrong, 6 o'clock.

Gillespie-Buffington vs. Esell-Knox, 5 o'clock.

WARREN MEETS BUFORD TONIGHT

One of the best amateur baseball games of the season will get under way tonight at 8:30 o'clock on the Warren-Buford field when Warren meets Buford.

The odds were on the Buford club to win until last Tuesday night, when Warren defeated the Goodyear nine from Gadsden, Ala., 2 to 1, which team defeated Buford twice.

Buford defeated the Warren team in Buford on the Fourth of July, 7 to 0, on a wet and soggy field.

Grady Bassett, former Texas league pitcher, or Cleo Jeter will be on the mound for the Shoemakers, while either Tom Harper or Am Crowder will do the hurling for Warren.

Through the season so far the two clubs have compiled a record as follows:

Buford Won, Lost, Tied, 53, 7, 1

Warren Company 43, 13, 1

Lineups for tonight's game will be as follows:

WARREN COMPANY

Mooden, 2b; Sinton, 2b; Carter, 1b; Gorman, 1b; Willett, 1b; Herin, 3b; Warren, ss; Hyder, cf; Jeter or Crowder, p.

AT GRADY FIELD.

Wilson Clothing Co. vs. Brooks-Shatterly, 8 p. m.

PAGE TEN THE CONSTITUTION, ATLANTA, GA., FRIDAY, JULY 17, 1936.

Still in the Tourney

Tommy Barnes, medalist in the recent West End and East Lake Club tournaments, will play John Ridley, a fellow East Lake player, at 10:15 o'clock this morning in one of the feature matches of the quarter-finals in the annual Georgia state amateur tournament. Barnes defeated Wade Hoyt, of Rome, in the lower half of the championship flight, 4-2, Thursday.

ATLANTANS WIN ST. PAUL MEET IN CHARLESTON STARTS TODAY

CHARLESTON, S. C., July 16.—(AP)—Two unseeded entries, Barney Smith, of Greenville, Tenn., and Campbell Gillespie, of Atlanta, Ga., sprang sensational surprises in the 10th annual South Carolina open tennis tournament here today, eliminating the two top-ranked stars of the meet, Don Doyle, of New Orleans, No. 1, and Joe Lucia, of Houston, Texas, No. 2.

Gillespie took Lucia in easy fashion. The Atlanta youth won the first set at 6-3, lost a long second at 6-8 and then went all out to outstrike his opponent and win the third, 6-2.

In the other two semi-finals matches Russell Bobbitt, Atlanta, seeded No. 3 behind Lucia, eliminated Bobby Curtis, Houston, Texas, 6-1, 6-1, while Roosevelt Lee, Miami, No. 4, ousted Bill Cain, Cincinnati, S. C., 9-7, 8-6.

In the semi-finals tomorrow, Lee meets Gillespie and Bobbitt tackles Smith.

For three days the pros have practiced on all-time record temperatures of between 100 and 108 degrees and turned in sub-par scores ranging down to 68 over the 6,522-yard well-trapped championship layout. The weather observer saw little chance for cooler weather Friday and Saturday when 18 holes will be played each day. The low 60 and ties will go 36 more Sunday.

Pacing the record list of money winners are Harry Cooper, of Chicago, winner of the title on two occasions and tied another year; Tony Manero, smiling national open champion; Jim Foulis, another former winner; Walter Hagen, Horton Smith, MacDonald Smith, here for the first time; Ray Mangrum, John Revolta, Jean Dawson, Jimmy Thompson, Lawson Little and Tommy Armour.

EX-SOUTHERN UMPIRE PASSES IN N. ORLEANS.

NEW ORLEANS, July 16.—(AP)—Robert E. Pender, 39, former Southern association baseball umpire, died here today.

He had been employed as a bookkeeper by the sewerage and water board for the past 25 years.

Pender formerly played baseball in the New York and Pennsylvania baseball league.

He is survived by his widow and one daughter, Mrs. Faris E. Jones, both of New Orleans.

Grantland Rice SAYS

"I can't imagine a man being satisfied with any shave but a championship shave—and that, of course, means Gillette Blades."

BICKNELL BEATS 1928 CHAMPION 2 ROUNDS TODAY

L. R. Hunter Plays Jim Dudley, Sole Remaining Visitor.

By Roy White.

Georgia's young golfers elimina all favorites and cleared the way some new name to be engraved on state trophy, with another great tiring pace Thursday morning in second round on the Capital C course.

And of the eight quarter-final only Lyman Hunter, East Lake star, has had any tournament experience to speak of and it was some five years ago that Hunter won Radium Springs invitation meet in last triumph.

Charlie Black Jr., the 1928 winner was the last of the veteran campaigners to fall and it required a sub-round by Bud Bicknell, a fellow Capital City player, to defeat Black.

JIM DUDLEY REMAINS.

And Atlanta's players, more determined than ever to return here after an absence of several years, have succeeded in eliminating every visitor except young Jim Dudley, of Athens, who plays Hunter today in one of the feature matches.

Antons completely dominate the bracket.

And what a battle there will be in the two rounds, with the starting at 10 o'clock and the finals scheduled at 2 o'clock.

The winners in each match will play in the final, 36 holes in the championship and 18 in all others scheduled for Saturday.

In today's morning matches, Dudley, Athens, plays L. R. Hunter, East Lake, and Forrest Fowler, Capital City, meets Bud Bicknell, Atlanta, in the upper bracket. In the lower half, Johnny Owens meets Bicknell, in a battle of Capital City stars, and Tommy Barnes meets Ridley in an all-East Lake match.

The winners in each match will square off at 2 o'clock for the final to battle Saturday morning at 9 for the championship.

BICKNELL UNDER PAR.

Thursday saw some of the best of the tourney, with Bicknell card a sub-par for 14 holes and equal par for the past 38 holes. And it is true championship golf in league.

Young Dudley's sub par golf too much for Dr. Fred Minnich, match and the Athens star was 5-4.

Lyman Hunter dropped a 14-putt on the ninth green to start for Little, of Athens on the road to fast. Hunter was one up at the 10th and the pressure was so great on Athens player that he missed a putt and was erratic on the remaining few holes.

George Sargent, East Lake professional, was standing near the clubhouse and remarked, "Only W. Hagen can survive a putt like that and keep on. It's the one shot golf which will wreck the morale 99 per cent of all players."

9-HOLE MATCH.

Forrest Fowler and Bud Bicknell, two Atlantans, won out on the 9th green in the real feature match of the day.

Fowler was two up at the turn Frank Mulhern, Augusta, and played only mediocre golf. Star at eight, Fowler settled down to a string of pars and an occasional birdie to match stroke for stroke with Augusta star. Fowler was one up par for the last 12 holes and had grown as Mulhern staged a 5-4.

Plan To Prevent Federation Split Studied by Both Labor Factions

WASHINGTON, July 16.—(AP)—A roughly outlined plan to prevent the threatened split in the American Federation of Labor received close attention today in both craft and industrial union camps.

The plan would provide:

- (1) That John L. Lewis, president of the United Mine Workers, and 11 union presidents affiliated with him in a drive to bring all the workers in each industry into one big union, disband the Committee for Industrial Organization.

- (2) That the federation's executive council, controlled by union leaders who think workers should be organized by craft, make exceptions of steel, automobile and rubber workers.

- (3) That a united federation organize these three groups into industrial unions while Lewis keeps hands off other territory claimed by the crafts. The plan was discussed at an unheralded conference Tuesday night. Those present included Daniel W. Trues, president of the Electrical Workers and craft union leader George M. Harrison, president of the

Railway Clerks and leader of a group in the executive council trying to avert a split; Father Francis J. Blase, member of the old National Labor Board; Edward F. McGrady, assistant secretary of labor; and Lewis. Failure of the council to approve it immediately was indicated by the council's decision yesterday to summon the Lewis group to trial August 3 on charges of "insurrection" and "rebellion" brought by John P. Frey, president of the A. F. of L. metal trades department.

This failure, however, did not stop both factions from considering whether the plan could be the basis of peace negotiations.

Meantime, labor observers received only hints as to whether the Lewis faction would appear for the trial if peace efforts failed.

Lewis was known to feel that the whole proceeding was extra-legal, as far as the federation's constitution or precedents went. He has been advised that failure to pay federation dues is the only legal cause for suspension unless a federative convention issues a suspension order.

Cantonese Give Up Kwangtung City As Nanking Troops Push to South

HONG KONG, July 16.—(AP)—Southwest China's second army beat a hasty retreat from the northern Kwangtung city of Suichow today in the face of a reported advance of Nanking troops.

The blowing up of an important bridge, it was reported despite earlier details, spurred the evacuation, since communications were said to have been cut. Some advisers said Nanking troops were expected to occupy Suichow tomorrow.

Much of the second Kwangtung army was said to be holding positions between Kuantien and Thungsha. Some troops, however, withdrew to the northern suburbs of Canton, giving rise to reports those regiments were deserting to Nanking.

With a fleet of airplanes, newly purchased from Japan, being assembled hastily at Canton, Generals Chai Chai-long and Li Chung-jen formally assumed their post as commanders of

an "anti-Japanese army," formed in defiance of central government rebukes.

Both seemed firmly resolved to fight, but their forces received a serious loss in the reported defection of the veteran politician Hsiao Fu-sheng.

Hsiao reached Hong Kong today, curtly refusing to talk. It was learned, however, he had disapproved Canton's revolt against Nanking authority. His action served to revive rumors that Japan actually is supporting the southwest militarists, despite their anti-Japanese protestations.

Canton reports indicated there had been no serious fighting between 'an' and southern troops as yet, but it was evident the Nanking forces were advancing and the southwest armies retreating, to shorten their lines.

In evacuating Suichow the southerners removed all machinery from a new airplane factory there.

Barbara Bell Patterns

1918-B
SOFT LINE SIMPLICITY FOR TRIM APPEARANCE

Here is a gracious and appealing frock whose soft-lined simplicity is equally becoming to mother and daughter. The all-in-one yoke and capelet sleeves give assurance of simplicity in sewing and the occasions for which it is appropriate are too numerous to tell.

The front and back bodice are designed with action pleats and the knitted pleat in the back of the skirt releases enough fullness to flare the panelled front. A personal touch may be emphasized by selecting a contrasting ribbon, or corded bow at the throat in your favorite shade. This dress is young and casual without being juvenile and recommended for its trim appearance and easy freedom of line. Send for this pattern and keep your clothes budget in balance.

Barbara Bell pattern No. 1918-B is available for sizes 14, 16, 18, 20, 40 and 42. Size 16 requires 4 yards of 39-inch material.

Price of pattern 15 cents. Do not send stamps.

Send for the summer Barbara Bell pattern book. Make yourself attractive, practical and becoming clothes, selecting designs from the 100 Barbara Bell well-planned, easy-to-make

POLL WILL REVEAL WAGE LAW OPINION

Four Large Cities Favor Amendment of Constitution to Legalize Statute.

NEW YORK, July 16.—Strong sentiment in four large cities from coast to coast for an amendment to the federal constitution that would guarantee the legality of minimum wage laws was reflected here today in the Institute of Public Opinion poll.

The strongest sentiment was revealed in ballots from Boston voters, 91% to 9% in favor of the amendment.

In the other three cities the vote is:

	Favoring	Opposing
Los Angeles	78%	22%
Chicago	72%	28%
St. Louis	70%	30%

Previously, the institute had reported the vote in New York state, which drew a supreme court veto last month—as 72% to 28% in favor of amendment. Like the New York state figure, the figures for Boston, Los Angeles, Chicago and St. Louis are part of a nation-wide audit of opinion on the subject of minimum wages being conducted by the institute.

Complete results of the poll, in which more than 100,000 ballots were distributed, will be published Sunday in a list of newspapers throughout the country.

POSSE WOUNDS FATAL TO WRIGHTSVILLE MAN

WRIGHTSVILLE, Ga., July 16.—A man Sheriff W. D. Rowland said was booked as Robert Allen, 60, died yesterday of wounds which the sheriff said he received in resisting arrest on a charge of killing another man and attempted robbery.

Sheriff Rowland said the man died in a Sandersville hospital of multiple body wounds. He said the man was wounded several times when he drew a pistol as a posse closed in on him last Tuesday.

GEORGIA POSTMASTERS WILL MEET AT MACON

MACON, Ga., July 16.—(AP)—W. A. Pattillo, Macon postmaster, announced the Georgia Chapter of the National Association of Postmasters will meet here in its annual convention August 14 and 15. He said about 200 postmasters are expected to attend.

Patterns. Interesting and exclusive fashions for little children and the difficult junior age, slenderizing well-cut patterns for the mature figure, afternoon dresses for the most particular young women and matrons and other patterns for special occasions are all to be found in the Barbara Bell pattern book. SUMMER NONCHALANCE

Carefully Dressed in Careless Clothes

Beyond the fact that summer offers weather conditions that permit the full enjoyment of the outdoors, another pleasant feature is that it gives most men the opportunity to don clothes that are essentially built for comfort. It almost presents a legitimate excuse for carelessness in dress. By this, we have no intention of encouraging sloppiness. The effect that is desired can probably best be described by the use of the high-sounding word "nonchalance." In summer clothing for all types of recreation and diversion, this is the desired quality. Of course, much depends on your particular tastes in the direction of these aforementioned diversions. The sort of thing we've portrayed here, amidst the pleasant surroundings of the tennis club, calls for some care in the selection of apparel. On the other hand, if you go in for the back-to-nature sort of thing, the avoidance of any semblance of overdressing is not only proper but intelligent.

Natural linen has just the right texture and just enough nonchalance in appearance to make the perfect midsummer sport jacket. This two-button, notch lapel, single-breasted model might have a half-belted back or might be made plain back with a deep center vent.

All-white and solid color shirts are most appropriate with summer sport clothing. The favorite oxford weave now boasts of the advantage of sanitizing, avoiding the discomforts caused by shrinkage, while other plain fabrics are air-conditioned, their porosity making them ideal for hot weather wear.

With plain shirts neckwear may be rather fancy, but not necessarily loud. Large Persian patterns in subdued, madder colorings make smart four-in-hands and the unique plaids of hand-printed India bandanna cloth are popular with men of discrimination.

While there are many shoe models to choose from for midsummer country and resort wear, the two we've shown here are highly fashionable. The all-white buckskin with gum-rubber sole is an excellent shoe for all purposes except dancing, in which case a leather sole would be preferable. The smartest and newest of shoes is this brown and white Norwegian model, being particularly favored this year.

Two hats with but a single thought are these shown here. Both provide sure protection from the heat and smart appearance, particularly with country clothing, and they will not weigh down too heavily on the old pate. The Panama (at the right) is worn with turned up brim and might carry a narrow fancy band to be smart this year. The coconut straw hat (at the left), produced by the natives of Nassau, has a puggaree silk band which may be solid color or made in a fancy India madras pattern.

Personnel Director Stresses General Appearance As Major Factor in Judging Applicants for Positions

He is the personnel director of an Atlanta concern which counts several hundred names on its pay roll. He was discussing those things which are taken into consideration when passing upon applicants for employment.

"While not quite ranking as the number one point, the general appearance of the applicant certainly comes within the first three points," he said. "And it is certain that the young man whose poor clothing and lack of neatness reveals carelessness disregard for appearance stands practically no chance at all of getting a job with our company."

He then went on to say that no young man should start to look for a job until he is sure that his appearance is such as to convey the best possible "first impression."

"It is almost as important as school and good references," he said. His advice to everyone looking for work is to first invest in new clothes, including the suit, shirt, tie, etc. In addition to this they should be meticulously careful to see they are smoothly shaved, shoes shined, hair neatly trimmed and nails clean.

"Notably about the person means, generally, attention to detail in work," he said, "and no man can expect to get far in business who is sloppy either in his work or personality."

Even if he would be aspirant for a position has only a limited amount of capital to pay his personal expenses until he gets on a pay roll, this man advised that a fair proportion of that capital should be spent on good clothes.

"It is not an expense," he said, "but an investment. An investment

in improvement of the goods you have to sell—yourself. Better to spend \$50 on good clothes and leave \$50 live on while you hunt a job, with reasonable chances of success, than to hang on to the entire \$100 for living expenses and ruin all chance of finding work."

This executive pointed out that it is really not the impression the applicant's clothing makes upon him, but it is his judgment of the impression to be later made upon the company's customers.

"In the business world," he said, "it is important to be sure your clothes are good, that they are conservative and neat. In other words, that they convey to the customer the right kind of interpretation of the character of the man with whom they are doing business."

IMPORTANT NOTE: In case you have any doubts about what to wear and when to wear it, we should be happy to send you a "Chart of Correct Dress—Approved by Esquire." Just send us a stamped, self-addressed envelope. Esquire will answer all questions on men's fashions. Write, Men's Fashion Department, The Atlanta Constitution, and inclose a self-addressed stamped envelope for reply. (Copyright, 1936, for The Constitution.)

BREAK O' DAY

Continued From First Sports Page.

And when twilight falls over the lush course, that three days ago was baked hard as iron, there will be left but two—the finalists.

Big Bud Bicknell, strong and carrying the game to win, was thrust into the favorite's spot by the locker room guessers—who sat about with the ice tinkling in glasses—and guessed at Saturday's finals.

Kid Brown, carried to the 19th green yesterday, is still the dark horse favorite.

But, the state tournament has been replete with surprises this week. Not a single pre-tournament favorite has survived. Surprise parties have been the rule.

THE SADDEST FIGURE.

The saddest figure at the tournament yesterday was one Bobby Dodd, the lanky east Tennessean.

His golf style causes the experts on form and style to wince. But he is a fighter. He got into the championship flight by fighting. Better golfers were left out. He was three down at the turn in his first match but pulled up even at the 16th only to lose on the next two holes.

Yesterday he lost in the consolation. But there was no consolation for him. Defeat sits heavily on the Georgia Tech backfield coach. And yesterday his face was as sad as that of an orphan who had missed the picnic bus.

CRACKER PLANS.

There was this much "inside" to the sale of Sheriff Dave Harris, Cracker outfielder, to Montreal—

Manager Eddie Moore was never sold on his work. Harris was not scheduled to be with the club this season but inability to find a replacement brought him back.

The sale of Harris will have some repercussions. He was popular with the fans. Already the letters of protest are pouring into newspaper offices.

Yet sale of the popular left fielder likely was the first move in rebuilding the club for 1937. With a surplus of outfielders on hand, Eddie Moore decided Harris would be of less value a season hence than others on the list.

The winter will see other deals. There will be some new faces on the 1937 squad and one of them may be a huge surprise.

The club should come on through to win the pennant despite its present slump. Breaking up a winning combination is most unusual. Few managers would care to remove a man who has been in there all the way on a club which has led from the start of the season. Even so, the Crackers figure to win the pennant. The play-off series is more doubtful.

The next move to be expected is one which will effect a change in the infield.

Meanwhile the club must go along facing left-handed pitching as often as rival managers can supply it. And with Harris gone the left-handers will be aided by having just one more left-handed batter in there against them. Meanwhile, the answer of the club to the query: "What's wrong with the Crackers?" is to point at the league standing. The Crackers are leading.

SOCIAL NOTE.

Mack Tharpe, Georgia Tech backfield coach, leaves by plane this morning at about the time the baby wakes up and cries—for no good reason. Which is to say, about 1:30 a. m. He is going on business—no football connections at all.

SUCH IS LIFE.

Another day of rain and the people who were praying for it four days ago will be grumbling at the excessive rainfall.

Setting for 'Green Pastures' Laid at Former Home of Atlantan

By Sally Forth.

ASIDE from its humor, Marc Connelly's fable, "Green Pastures," which is a current movie hit, reveals an interesting Atlanta angle. Adapted from Roark Bradford's book, "Ole Man Adam and His Chillun," local interest in the play is crystallized in the fact that much of the author's inspiration and color for his work were gleaned from the ancestral home of Atlanta's beloved Mrs. W. F. Melton, president of the Atlanta Woman's Club and a leading figure in the city's cultural and social life.

When Mr. Bradford was writing his famous book, to further authenticate his facts and characters he went to Samboul plantation, in northern Louisiana, 10 miles from Lake Providence, which yielded not only his desired information, but also lent a colorful atmosphere and background for this subject. The famous ante-bellum estate was one of three owned by the late Oliver Hazard Perry Keller, where he took his bride, the former Emily Bass, after their marriage in the sixties. His other plantations were Keller and Transylvania.

It was at Samboul that the Kellers' daughter, Oliver, was born and later married Dr. W. F. Melton, himself a leader in many branches of Atlanta's cultural achievements. Mrs. Melton, a cousin of the famous Helen Keller, states that in seeing "Green Pastures" many of her childhood days are recalled, as the picture accurately portrays scenes so delightfully associated in memory and fact with her life at Samboul. Pictured in one scene is the same old bell Mrs. Melton's father, who was a noted figure in the Confederacy, rang to call his slaves from the cotton fields. There is also shown a part of the old negro quarters characteristic in any portrayal of slave days. Giant oak trees over 100 years old, draped in ivy moss, formed a shady and restful retreat at Samboul, which was beautifully transferred to the screen for the benefit of hundreds. In all, Mrs. Melton feels a certain amount of pride, akin to sentiment, in seeing "Green Pastures." The original setting for "Ole Man Adam and His Chillun" shows the southern plantation home that was extolled in song and story.

When Lamar Hamilton Ellis was moved from the hospital to the Peachtree road residence of his maternal grandparents, he was put to sleep in the old-fashioned mahogany cradle which was occupied by his mother, the former Sara Hewlett, during her infancy.

The cradle is over 100 years old and belonged to Mrs. Hugh Harris, of Athens, maternal great-aunt of the baby. She gave it to Mrs. Samuel D. Hewlett, his maternal grandmother, who used it for her children.

An oval-shaped mahogany canopy tops the cradle, which is designed with rockers. The coverlet is made of puffed squares of blue silk and the edges are embroidered in pink rosebuds and blue dots. The coverlet was made by Mrs. William D. Ellis, paternal grandmother of little Lamar Jr., who is noted for her exquisite handwork.

ELIZABETH HOLCOMB is enjoying the pleasures and amenities that go with visiting at the seashore and attending a series of house parties. When she left Atlanta three weeks ago her destination was Tybee Beach, where she was the guest of Ann Douglas, a classmate at Hollins college in Virginia. At the conclusion of her stay there, Elizabeth went to St. Simon's Island to join the house party given by Miss Lee Wilson, another Hollins classmate.

At the moment, Elizabeth is visiting Hilda Whitaker, of Chattanooga, another college classmate, whose family spend their summers in their cottage at Tybee Beach, S. C. Elizabeth is destined to be on the wing for the remainder of the summer, for she will spend several weeks motoring in the Smoky mountains when she concludes her seashore sojourns. She is the attractive younger daughter of Mr. and Mrs. Charles Holcomb, and returns in the autumn to Hollins College.

'Attractive Summer Bride'

Mrs. John Barnwell Duncan, who was before her marriage Miss Virginia Ernestine Schenck, daughter of Mr. and Mrs. Ernest Milton Schenck, of Hapeville. Photograph by McGraw and Company.

Camp-Shackelford Wedding Date Set For Next Tuesday

The marriage of Miss Marie Frances Camp, daughter of Mr. and Mrs. R. E. Camp, to Hugh Williams Shackelford, of Albany, Ga., will be solemnized at noon July 21 in the Winship chapel of the First Presbyterian church. Rev. Homer McMillen will be the officiating clergyman and the occasion will assemble only the families and close friends of the bride-elect and her fiancé.

The bride-to-be will be given in marriage by her father and her sister, Mrs. Jacob Millard Goff, of Richmond, Va., formerly Miss Leila Camp, will be her matron of honor. Charles Shackelford, of Albany, will act as his brother's best man.

Mr. Shackelford and his bride will leave immediately after the ceremony for a motor trip to Florida. They will return to Albany, where the groom-to-be is a prominent attorney, to make their home.

Legion Auxiliary Reinstates Officers.

At a meeting of the Waldo M. Sloan Legion Auxiliary No. 140 held recently at the home of Mrs. Marvin Roberts on West Shadow Lawn avenue, the following officers were reinstated for the coming year: Mesdames E. B. McDougal, president; J. C. Orr, first vice president; Ernest Allen, second vice president; James E. Nicholson, secretary; Marvin Roberts, treasurer; R. S. Innes, historian; Calvin Waddell, chaplain; Archie Mitchell, sergeant-at-arms. Plans were discussed for extensive rehabilitation and memorial work. Mrs. George Newton, hospital contact chairman, and her committee plan to continue hospital work for the past year. After the business meeting a social hour was enjoyed. At the department convention, held in Athens in June this unit was awarded a citation and was presented with a copy of the national history for outstanding historical work during the past year.

Miss Rutland Weds Mr. Braden in Rome.

ROME, Ga., July 16.—The marriage of Miss Eugenia Rutland and Oscar Thibden Braden was solemnized here at 3:30 o'clock this afternoon in the North Broad Baptist church by the bride's father, Rev. O. E. Rutland, pastor of the church. Mrs. J. W. Howell, organist, played a musical program, and Mrs. Henderson Lanham sang.

The bride was accompanied to the altar by her uncle, R. E. Auchmuty of Aragon. Miss Frances Rutland was her sister's maid of honor, and Misses Mary Fox Copeland and Louise Braden were bridesmaids. Patsy Wright, daughter of Mr. and Mrs. Lloyd Wright, was flower girl and Bobby Price, son of Mr. and Mrs. Raymond Price, acted as ring bearer. The bridesmaids wore gowns of pink mouseline over taffeta to match and the maid of honor wore blue mouseline over matching taffeta. Their hats were of loghoun straw and they carried bouquets of pink roses. The flower girl wore yellow mouseline and carried a nosegay.

The bride's gown was fashioned of ivory satin made princess style. Her veil of illusion tulle was fastened to her hair by sprays of orange blossoms and she carried a shower bouquet of valley lilies and gardenias. Jack Ryars acted as best man and groomsmen were Graham Russell, Elmer Welch, J. T. Ryne and Harry T. Evans.

Mr. Braden and his bride left for a motor trip to Virginia. They will make their home in Rome with the groom's father, I. T. Braden.

SOCIETY EVENTS

FRIDAY, JULY 17.

Mr. and Mrs. Lane Mitchell and Mr. and Mrs. Earl McMillan, recent additions to young married circles, will share honors when Mr. and Mrs. Julian Jett are hosts at a bridge party at their home.

Mrs. Earl McMillan will be the honor guest when Mrs. Earl Goff and Mrs. Lane Mitchell entertain at luncheon.

Lambda Chapter of the Tau Phi sorority entertain at a dance on the roof of the Capital City Club.

Mrs. Bertram Sampler gives a luncheon in compliment to Miss Betty Parks, bride-elect.

Mrs. Logan Bleckly Jr. and Mrs. Charles Dillingham, members of the board of the Atlanta League of Women Voters, entertain their groups at tea at 4:30 o'clock at the home of Mrs. Bond Almand, 207 Westminister drive.

Alfred H. Colquitt U. D. C. Chapter will honor the birthday anniversary of Miss Millie Rutherford at the Soldiers' Home at 4 o'clock.

West End Woman's Club gives a bridge-tee at 2:30 o'clock at the clubhouse, 1100 Cascade avenue.

The Adair Park Garden Club gives a picnic at 4 o'clock at Moseley park, West End.

The Cascade Beautification Club sponsors a garden tea at Casa Loma, the home of Mrs. Thomas H. Pitts, Cascade road, 5:30 to 7:30 o'clock.

Mrs. Mason Lowance entertains at a swimming party and luncheon, honoring Miss Adaline Heiskell, of Memphis, Tenn.

The Fifth District Georgia State Nurses' Association meets at 2:30 o'clock in Georgia ballroom of Henry Grady hotel.

Mrs. Marion Glover will be hostess to the Grant Park Woman's Club at 11 o'clock at her home, 645 Cascade avenue, S. W.

Kennesaw Home and Garden Club meets at 3 o'clock with Mrs. J. C. Fletcher at her home at 636 Kennesaw avenue, N. E.

Friendly Counsel

By CAROLINE CHATFIELD.

Problems of general interest submitted by readers will be discussed in this column. Correspondence invited. Your name held in confidence. Write Miss Chatfield, care The Atlanta Constitution.

Dear Miss Chatfield: My wife and I are having trouble. She is threatening to leave me and the children and here are the reasons. I was in a hospital for two and a half months and while I was away her father, brother and sisters came to my home and carted off any and everything they fancied. Many of these things were valuable to me, among them a bed, a mirror, a window sash, a grindstone and a door. Her brother dismantled an old car and removed such parts as he wanted. Last winter I gave them as much milk as I could spare and my wife sneaked jars of fruit from the cellar, giving them as much as 42 quarts at one time. Of course we ran short in the spring, as we have four small children to feed. I told them that hereafter they could come to my home only when I was there. They got mad and said they would show me who was running the place. When my wife comes home from visiting them she is meaner than a hot cat. Should I let her carry out her threat to leave home or should I submit to the stealing and my provisions? Such high-handed methods would infuriate any man, but if you will use

Answer: Heaven help the husband whose wife has a bad case of "clautitis." She's hard to control. She will short-change her husband any day to slip a coin to her clan, but when she begins to dismantle the house and pass over the kitchen equipment and the pantry supplies, then is the time for him to call a halt—and she won't leave him either. Nobody can blame you for resenting the in-laws making free with your possessions and your provisions. Such high-handed methods would infuriate any man, but if you will use

Miss Hart Weds Talley Kirkland

MACON, Ga., July 16.—Miss Mary Evaline Hart, of Atlanta, became the bride of Talley Kirkland, also of Atlanta, at a quiet ceremony solemnized Sunday morning at the Vineville Presbyterian church here. The Rev. George M. Wilcox, pastor of the church, read the marriage service in the presence of a small group of intimate friends.

The bride chose for the occasion a smart ensemble of hydrangea blue crepe, which she wore with white hat banded in blue and blue accessories. Her flowers were a shoulder cluster of gardenias.

Mr. Kirkland and his bride left for a motor trip which will include the beach resorts on the east and west coasts of Florida. Upon their return they will reside in the St. Andrews apartment in Atlanta, where the bridegroom is engaged in the practice of law.

The bride is the daughter of Mr. and Mrs. Benjamin Frank Hart, of Bennettsville, S. C.

West End Club To Meet Wednesday.

The West End Woman's Club meets at the clubhouse, 1100 Cascade avenue, Wednesday, with the vice president, Mrs. H. B. Bankston, presiding. Board meeting will be held at 2:30 o'clock and the business meeting at 3 o'clock. Mrs. E. L. Edwards will have charge of the literary program.

Mrs. W. C. Messer, the president, is on a motor trip to Daytona Beach and other interesting points of Florida.

Lula Belle Scott Celebrates Birthday.

Mrs. Robert H. Scott was hostess at a children's party Wednesday at her home on Habersham road in compliment to her small daughter, Lula Belle Scott, in celebration of her sixth birthday.

The guests were Clara Hardwick, Rebecca Gowan, Mary Frances Young, Edith Paris, Virginia Lee Hanson, John Selvage, David Bottom, Johnny Green, Ralph Paris Jr. and Robert Scott Jr.

Friendly Twelve Club.

Mrs. B. L. McClelland was hostess to the Friendly Twelve Club Wednesday at her home on Dill avenue. Mrs. P. J. Wilbanks, the president, presided.

After the business meeting the club gave Mrs. J. H. Kirk, one of its members, a miscellaneous shower in honor of her birthday. The hostess entertained with games, prizes going to Mrs. E. E. Royal and Mrs. C. T. Everett.

Outing Plans.

The Aliaa Class of Capitol Avenue Baptist church will hold its annual picnic Monday evening at Grant Park. Those attending are requested to meet at the pavilion at 7 o'clock.

Sewing Circle Picnic.

The Wednesday Evening Sewing Circle recently enjoyed a picnic at the log cabin of Miss Louise Reeves and Bill Muller on Roswell road.

Birthday Dinner.

Mrs. Frank A. Miller was hostess recently at a surprise birthday dinner at her home on Holderness street in compliment to her mother, Mrs. C. A. Harwell.

The guests included: Mrs. C. A. Harwell, Mr. and Mrs. H. A. Rauschenberg, Mr. and Mrs. H. N. Rauschenberg, Mr. and Mrs. A. O. Rauschenberg, P. A. Miller, Andrew Rauschenberg, Ronald Rauschenberg, Frank Miller Jr., Owen Miller Loretta Rauschenberg, Byron Rauschenberg and Eugene Rauschenberg.

Fraternity Party.

Georgia Alpha chapter of the Phi Delta Kappa fraternity entertain with a sport party and watermelon cutting tomorrow evening at the country home of Mr. and Mrs. John S. Florence at Ben Hill in honor of the delegates from the local chapter who will attend the annual convention of the national organization. The national convention will be held in Cincinnati, Ohio, July 25-28. Atlanta delegates will be A. S. Florence, Dale Wilson, Milton Matthews, Oscar Epps and John Whiddy.

some diplomacy perhaps you can straighten things out. You can't wear your wife from her family by shutting the door in their faces. You can't keep her from dividing what she has with them. Yet if you sit down as a couple of partners and discuss what is fair and just in the matter, you will fare a lot better than if you try to fight it out. CAROLINE CHATFIELD.

Home Makers' Club At Howell Station Elects Officers

The Home Makers Club at Howell Station which was organized recently by the Kirkwood Home Maker's Club met at the home of Mrs. Lawrence Vines. Officers elected were: Mrs. Glenn A. Ellis, president; Mrs. R. L. Prather, vice president; Mrs. Lawrence Vines, second vice president; Mrs. W. H. Knight, third vice president; Mrs. Arthur Walls, recording secretary; Mrs. Long, corresponding secretary; Mrs. Grady Helton, treasurer; Mrs. Harry Williams, auditor; Mrs. S. C. Mann, historian. Violin solos were rendered by little Miss Jean Cagle, of Blacksburg, Va.

National Capital Visitor Given Treasure Hunt at McKinney Home

Miss Edna Jane Southworth, of Washington, D. C., the guest of Miss Coribel Mason, was honor guest at the treasure hunt and buffet supper given last evening by Miss Dorothy Dean and Carlton McKinney Jr. at the home of the latter's parents, Mr. and Mrs. L. McKinney.

C. McKinney at their home on Peachtree road. The youthful hosts were assisted in entertaining by their parents, Mr. and Mrs. McKinney, and Mr. and Mrs. Ewing Dean. The guests included Miss Southworth, Miss Mason, Misses Emmie Martin, Elizabeth Groves, Grace McClatchey, Eloise Dickey, Mary Jane Thwait, Marie Cherry, Susan Spratt, Joyce Estes, Hazel Butler, Margaret Sampson, Sarah Feener, Helen Randall, and Don Nichols, Dick Sams, Irving Gresham Jr., Henry Heinz, Charles Freeman, Oliver Jackson, Ralph Whitlock, Billy Simmons, Lamar Young, Allan Sampson, Walter Armistead, McLaws Kieffer, Homer Young, Bobby Hampstead and Billy Mason.

"WATCHMAN, WHAT OF THE NIGHT?"

INSTALLMENT II.

Has he any hopes, fears, dislikes, ambitions, hates, loves or desires? Very few. It may be that his is the true philosophy. John Davidson says of him in a poem:

I hang about the streets all day,
At night I hang about;
I sleep a little when I may,
But rise betimes, the morning's scout.
For through the year I always hear
About my face, like waxed drops,
My tangled beard, my tangled hair,
From caverns and shaggy brows
My story eyes untroubled stare,
I know no handicraft, no art,
But I have conquered!

For I have chosen the better part,
And neither hope, nor fear, nor hate;
With placid breath, on pain and death,
My certain aims, alone I wait.
And daily, nightly comes the call,
The pale unheeding note,
The faint "Aha" sent from the wall
Of Heaven, but from no rudely throat
Of human breast or serpent's neck.
A phantom voice that cries by rote.

This is a state closely bordering upon Nirvana. Tennessee struck another chord that sooner or later most people come to feel, when he said: "For, not to desire or admire.

If a man could learn, it were more than to walk all day like a sultan Of old in a garden of spice."

The tramp sits out the weary hours of the night or else wanders in dreary aimlessness about the streets, or crawls into some vestibule or doorway for a few brief hours of unquiet slumber.

He is a pitiful solution of life at its best, for though he has acquired a numbness in place of what was once a keen pain, it is directly contrary to the plan of the human mind to await in hopeless stolidity the "certain aims" of death.

One of the most important of the world's industries carried on at night is the making of the great morning daily newspaper. The average reader who unfolds his paper above his coffee cup in the morning rarely reflects that it represents the labor of half a hundred men, a great number of whom bend their lagging steps homeward only when the new day has begun to wake the morning echoes with his familiar cry.

When night comes the editorial day force is ready for home; the Associated Press wire is rattling in its messages from all parts of the world; the "heads" on the typewritten copy of the telegraph operator, and the night editor has rolled up his sleeves, laid his club handy, and breathes a silent prayer for help to the goddess of invective as he begins to wade through his pile of missives from correspondents. The state wires are opened, and the messenger boys are beginning to arrive with specials.

The city editor and his force are in, and are busy writing out the local news from the notes they have taken during the day.

The phone rings, a reporter seizes his hat and is off to get the item—perhaps an affair—someone run over by a wagon—some fire, a holdup, or burglary—something that the good citizens must not miss as they eat their hash and muffins at breakfast.

The editorial room at night sees many strange characters and scenes. People come upon all kinds of curious missions.

A citizen stumbles up the stairs

and nearly falls into the room. The force simply glances at him and keeps on working. His fair is "crowded"; his coat is buttoned in the wrong button-holes; he wears no collar, and in his blinking eyes, a roguish twinkle strives to overcome the effects of loss of sleep. He is a well-known citizen, and the force marvels slightly at his unusual condition. He staggers over to the telegraph operator and clutches the railing around his desk.

"Shay," he says in a bibulous voice, "watchman, what of the night?"

The telegraph operator does not look up, and the gentleman tucks with difficulty and steers against the railroad editor.

"Watchman, what of the night?"

"Railroads," says the gentleman shortly.

"Zat's ze sign. Gotter biggest railroad item ever saw. Give you two columns, I'm goin' back now. Had a tremendous 'clement railroad shirkles'."

The railroad editor writes calmly on, and the visitor gives him a reproachful look and bears down upon the city editor.

"Shay, friend," he says, "gozzer biggest scoop 'n city news world ever heard. No ozezer paper 'n town knows it."

"What is it?" says the city editor, without turning his head.

"Appalin' sensation 'n fir's ward. Shent four, five reporters my house at once. I'm goin' back now. Had twins my hush when lef home. Goin' back to sh' 'f any more 'rived. Come back 'n let you know if find any. Shoo long, gentlemn. Keep two columns on front page open till get back."

Later on three or four young gentlemen drop in. They are well-dressed, carry canes and seem to have been out enjoying themselves. One or two of them have torn coats and disarranged ties. One has a handkerchief bound over his eye. They confer deferentially with the city editor, and certain words and phrases, half-thought, tell the tale of their mission: "Unfortunately affair—police—best families—publicity—not seriously hurt—upper circles too much wine—keep out names—heated argument—very sorry friends again."

Comes the hot lunch man with his basket filled with wieners, mustard, ham sandwiches, boiled eggs, cold chicken. The staff is too busy, and he lugs his basket upstairs where the printers are at work.

A boy brings in a special telegram. The night editor opens and reads it, and then springs to his feet. He grasps a handful of his hair and kicks his chair 10 feet away.

"Listen to this."

It is a special by wire from a country correspondent. This is what it says: "Spring has opened here. The birds are singing merrily in the trees and the peach trees are in full bloom. The weather has moderated considerably and the farmers are hopeful. The fruit crop will be assured unless we should have a cold snap sufficient to injure the buds."

remarks the night editor again, and then, again, and then, his vocabulary failing to express his feelings, he bites his cigar in two and sits down again.

A man in a frock coat and a big walking cane saunters in and draws a chair close to the night editor's desk.

"When I was with Lee in the Valley of Virginia," he begins.

"I am sorry you are not with him now," says the night editor.

The visitor sighs, borrows a cigar and a match, and drifts off to see if he can get the ear of someone of a more indulgent temper.

Between 1 and 2 o'clock the city editor and his assistants are through their work; the railroad man turns in; "30" and they troop away, leaving the night editor to remain until the last.

In the composing room the printers have been working away since 7 o'clock on their keyboards like so many Pederewskies. They quit about 3:30 a. m. As the night editor leaves, another army has begun its march.

MANNERS OF THE MOMENT

"O. K. Catch Me!"

Children who climb trees terrify their parents. They know how to act around them. If we shout at them when they are in a precarious position we are always afraid we'll scare them into falling down. And if we sit down under the tree to keep an eye on them, they invariably start swinging from the branch and either kick us in the forehead or use us as a landing fire. Sometimes they'll tell us to get them, which leaves us all a dither. How in the world would you catch a child; we don't know.

Well, anyway, what with this pious about children who act around them, we've decided to carry with us every expedition to the country or the park, where children may be climbing trees, a good big man's hands chief to use as a catwalk. Then we tie it around our eyes and waive responsibility. It's the only way stay sane.

(Copyright, 1936, for The Constitution.)

UNCLE RAY'S CORNER

TRIPS TO THE PLANETS.

In years gone by, those who wrote about the stars and planets sometimes told how long it would take a railway train to go to one of them. The figures showed that it would take hundreds of years for a train to reach such a planet as Jupiter or Saturn.

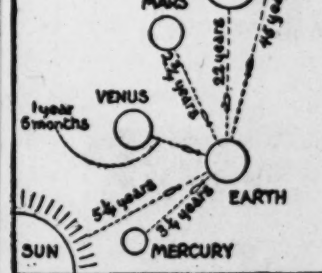

In these days of faster travel, we might use airplane trips as examples, but it does not seem that they would do very well. The air around the earth exists only a few hundred miles upward, and beyond that how could propellers pull a plane forward?

A trip to Saturn would take about 45 years, which would be a long time to wait to see those rings! For a part, I think I'll let the Saturn train go for "it'd be too old by the time got there."

A journey to Mars, at the same speed, would use up about two years and nine months. I hope that at the end there would be the reward of meeting some interesting people. If there really is a canal system working the those who built it must be men of good brains—and hands with which work. As I said the other day, should learn much more about so-called "canals" after Mars is studied with the great new telescope now being built.

A trip to the moon at 2,000 miles an hour would take only five days, but I warn you not to be in a hurry to go there. The landing would be rough, and if you got out of the rock alive, I think you would not like the weather very well.

(For Science section of your serial book.)

Diagrams showing time rockets going 2,000 miles an hour would need to reach five planets and the sun.

Let us then go a bit into the future, and make believe we are using rockets. They MIGHT be used some day for trips to the planets. Let us suppose that our rocket goes at the speed of 2,000 miles an hour, and that we aim at each planet when it is about as close as it comes to the earth. All planets, at the "closest," are millions of miles away.

Those who pointed the rocket would have to know astronomy. They would need to aim ahead of the planet, to allow for its motion during the time of the journey. Otherwise the rocket might go on through space "forever."

With our rocket aimed truly, and keeping the speed of 2,000 miles an hour, we should reach the planet Venus in one year and five months. We might have a rather wet reception, for there are very thick clouds around Venus, and there may be more water than enough on the surface. It would be interesting to look around on the fair planet, but what we'd see is a mystery. Perhaps there are dinosaurs roaming about, but we have no way of telling that for certain.

Miss Swagerty and Rev. Hope Wed at Emory University Chapel

The marriage of Miss Adeline Swagerty and the Rev. William Hope, of Fort Payne and Birmingham, Ala., took place at 4 o'clock yesterday afternoon in the Emory University Theological chapel. The ceremony was performed by the bride's father and grandfather, Rev. James Swagerty and Rev. William Swagerty, of Birmingham.

Mr. and Mrs. Freeman E. Groover, of Mrs. John C. Brown rendered a special program, and the altar was adorned with palms and pedestals. The bride wore a gown of white tulle, with a long train, and a crown of white flowers. The groom wore a tuxedo. The ceremony was attended by a large number of guests, including many of the bride's relatives and friends.

John Thompson Adams, of Tampa, Fla., was the groom's best man. The lovely bride was dressed in white lace, veiling white satin, and fashioned along princess lines. The shirred bow of the gown was ornamented in front with a rhinestone clip, and the long sleeves ended in points over the hands. A row of small crystal buttons fastened the gown in the back from the neckline to the waistline. The fullness in the close-fitting and graceful skirt was introduced by inserts of the material and she wore a becoming lace hat, trimmed with miniature orange blossoms and featuring a shoulder-length tulle veil. The bride carried a bouquet of white roses and sweet peas tied with white tulle ribbon.

Mrs. Swagerty, mother of the bride, was dressed in white tulle, with a crown of white flowers and a shoulder bouquet of gardenias.

After the ceremony the bride and groom were entertained at a reception at the home of the bride's parents on Ponce de Leon avenue.

The bride and groom left for a short wedding trip. The bride traveled in a two-piece costume of dark blue silk crepe with a navy blue belt and matching accessories. Rev. and Mrs. Hope will reside in Fort Payne, Ala.

PERSONALS

Mr. Edward Van Winkle and Mrs. George Tigner motored to Highlands, N. C., Wednesday to be the guests of Mr. Frederick G. Hodgson at her home. Mrs. Van Winkle is the daughter of Mr. and Mrs. W. W. Woods Jr., of Atlanta.

Mr. and Mrs. Walter Colquitt Jr., returned yesterday to their home in Hartford, Conn., after having been guests of Mr. and Mrs. Walter Colquitt Sr.

My Day

By ELEANOR ROOSEVELT

NEW YORK, Wednesday.—Today I visited the women's division in the national democratic headquarters, just for the fun of seeing some one else do the organizing and preparation for a campaign. There have been many democratic national and state campaigns in which I attended to the details of organization, so that particular kind of work is interesting to me. It is fun to watch the heads of the different departments marshaling their forces.

From there I went to the office of my syndicate to talk over the things which are good and bad in this column I write for you, dear readers, every day. It is a grand thing to get the advice and criticism of people who really want to make such things as any of us poor scribes write more useful for the general public. There is just one bit of cheer, however. No matter how much we improve, not everyone will ever be pleased, and therefore we may hope that not everyone will ever be displeased either.

My daughter and son-in-law and I went to lunch together. For the first time I had time enough really to chat about the one exciting piece of family news, a new grandson born last night, who will be named Elliott Roosevelt Jr.

Every child in a family is a link with the future, and starts your imagination wandering down the aisles of possible developments. What will the world be like when this baby is old enough to earn his living, to take up his responsibilities? It makes one want to live to see the future. Yet, at the same time, it is the kind of hostage that makes one more willing to lay down one's arms!

After lunch I came back to the office to see Miss Mable Evans, a gray-haired teacher with fire still in her eyes, bent upon starting a school to educate adults based on the laboratory theory that one must learn by doing. She feels that all the effort to prevent crime is wasted until, in practice homes, we really show mothers how to build character in their children.

Only some one with great determination and belief in his mission could have moved me to do anything today. So it was a tribute to Miss Evans' conviction that I finally agreed to present her ideas to Dr. John Studebaker, commissioner of education in the Department of the Interior.

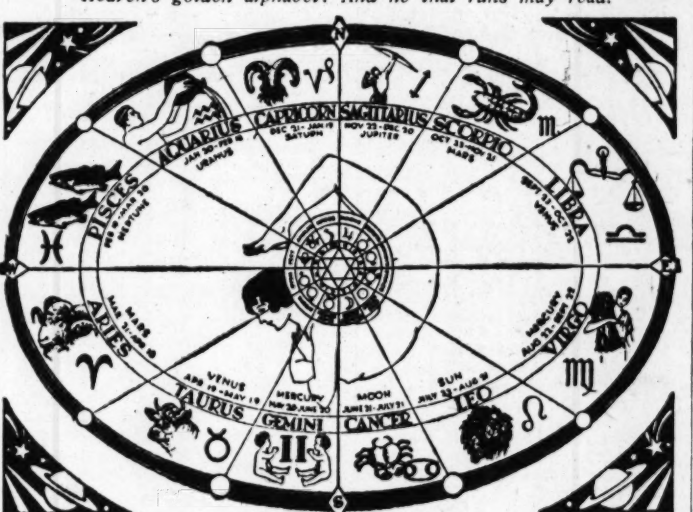

It is cooler today, but not so cool that you could embrace new ideas with energy!

"ATLANTA'S WHO'S WHO IN THE ZODIAC"

MRS. RUSSELL WHITMAN.

December 8 marks the natal day of Mrs. Russell Whitman, one of Atlanta's most outstanding women. Mrs. Whitman is a native of New York and has traveled much. Her poetry and book reviews appear in the outstanding magazines and periodicals of the country. The Sun, the Sagittarius gives ambition, daring and sportsmanlike qualities. The house position of this luminary gives worldly honors, vitality, energy and force, independence and enthusiasm.

Number 1111.—You have many friends but few intimates. The intimates are those you choose your friends with care and then stick to them through thick and thin. You like best people who act with dignity at all times. Do not talk too freely concerning your private affairs. Take the advice of conservative people and avoid sudden and unexpected changes of mind. You could make friends on your bank account. Number 900.—You are inclined to travel much during your life, and will make journeys that will terminate in a profitable and interesting manner. You are subject to taking long journeys suddenly, without much notice to anyone. If you will remember your dreams, you will find that many of them have a prophetic meaning. You do it.

A Mosquito Cream That Is a Revelation—Do Try It

By MIGNON. (The Mignon who writes this column does not sell, endorse or manufacture any cosmetics.)

A trip into the country over the week-end proved to me the real importance of mosquito cream. A little girl in the household had—and she said she counted them—over 200 mosquito bites on her arms and nothing seemed to do her any good. She said she could not stand the smell of citronella. That is where I became enormously valuable because I had just discovered a new mosquito cream, the base of which, I am told, is citronella. I cannot prove that, but I know it works and, what is more, it is a soft cream, easy to apply and it has a delicate fragrance. If you live in a mosquito region I would advise you to invest at once. There is never any use in being uncomfortable when you can be comfortable.

If you want to know here you can purchase any article mentioned in this column phone Mignon at The Constitution. Please do not write unless you live outside the city, in which case enclose a stamped, self-addressed envelope.

TECH PLAYERS CHOSEN FOR EUROPEAN CRUISE

The Cunard White Star line has selected five members of the Georgia Tech Ramblers as an orchestra, to be known as the "Georgia School of Technology Orchestra," which will play on the Cunard liner Laconia, when it sails for Europe from New York July thirty-first.

After the boat docks at Liverpool August 8, the band plans to stay in London until August 14. They will then leave for Paris, staying there until August 21, when they will meet the "Georgia" at Havre and return to the United States. Members of the band are Sam Young, Richard Beard and Robert Warwick, all of Atlanta; Howard Pike, of Goshen, N. H., and Billy Owens, of Clinton, S. C.

Pilot Club Gives Picnic July 28 At German-American Club

The July social meeting of Atlanta Pilot Club will take the form of a picnic on July 28 at 7:30 o'clock at the German-American Club on Fourteenth street. Mrs. Mayme Taylor is in charge of arrangements. By request of the membership the band, under the direction of Mrs. Belle Bond, which scored such a success at the international convention in June, will play on this occasion. Members are requested to make reservations for the picnic with Mrs. Carolyn Seivers not later than noon on July 25. The Atlanta Pilot Club met Tuesday evening at the Ansley hotel. In the absence of the president, Mrs. Carolyn Seivers, the first vice president, Mrs. Grace Turner, presided. It was voted to set aside 15 per cent of profits above \$10

made on projects sponsored during the year by the ways and means committee to apply on the club's educational fund. Miss Geraldine Burch, chairman of the ways and means committee, reported on the financial success of the buffet supper given in June at the home of Miss Jane Boyd, and the club voted to hold the August social meeting in the same manner at Miss Boyd's home. Mrs. Turner read an article from a Savannah paper announcing the appointment of Miss Mable Clair Speth, executive secretary of Pilot International, as hostess at one of Fort Screven's exclusive officers' clubs. Mrs. Alverta Fox announced that Miss Speth has been named to head the Salvation Army's drive in Savannah, the first time a woman has ever been named to this post.

Culbertson on Contract

By ELY CULBERTSON, World's Champion Player and Greatest Card Analyst.

GHOST OF THE PAST.

In my morning's mail I received a letter from a Chinese student in Shanghai. He craved my assistance in the solution of a hand that had been given him with the challenge that he would be unable to make it. The stipulated contract of six spades. He was unable, he said, and would I please "help his head not to ache" by rushing the proper directions? This was something vaguely familiar about the hand that piqued my curiosity. Not that it was so difficult (a more or less routine double-squeeze play), but I knew I had seen it before. Finally the light dawned. It was one of the 16 original World Bridge Olympiad hands made up by myself in 1932. This was it: Neither side vulnerable.

Q 9 8 4 3
K 5
J 10 9 7

The bidding suggested in the par sheets circulated immediately after the event was:

West North East South
1 spade Pass 3 no trump Pass
5 spades Pass 6 spades Pass

While it cannot be denied that the correct contract was reached, it would appear that there was a grave danger, from West's point of view, that he was stopping short of a laydown grand slam

T. C. LAW IS NAMED TO HIGH SHRINE POST

Former Potentate of Yaarab Temple Chosen Imperial Outer Guard.

Thomas C. Law, potentate of Yaarab Temple here for four consecutive terms from 1926 to 1929, was elevated from second ceremonial master to imperial outer guard at the installation of officers of the imperial divan of the Shrine in Seattle yesterday.

A Detroit judge, Clyde I. Webster, "hurled" a year in the ten-year succession up the ranks of the imperial divan when Deputy Imperial Potentate Hugh M. Caldwell, of Seattle, declined to accept the position of imperial outer guard after being elected.

In the automatic advancement Noble Law, who was elected imperial outer guard at San Francisco in 1932, advanced from imperial second ceremonial master to imperial outer guard. Following the customary routine observed by the imperial council, he will advance to imperial potentate in 1941.

Noble Law is a prominent figure in International Rotary, past commander of Knights Templar in Georgia, member of the Knights Templar youth education movement, and knight commander of the court of honor of the Scottish Rite bodies in Atlanta.

With two places vacant at the bottom of the list of officers in the imperial divan, William M. Woodfield, of Islam Temple, San Francisco, was elected imperial captain of the guard, and Judge Webster, of Atlanta Temple, Buffalo, was chosen imperial outer guard, the "starting point" on the imperial divan. The imperial officers were installed by "Uncle" Lou B. Winsor, Saladin Temple, Grand Rapids, oldest living past imperial potentate.

Imperial officers said selection of Detroit Judge Webster's home town and its Muslim Temple as hosts for the 1937 convention awaits formal confirmation, but that it undoubtedly would be chosen in line with Shrine tradition.

U. S. WORKERS HERE TO FETE RAMSPECK

Testimonial Dinner Is Set for Next Friday at Ansley Hotel.

Atlanta's federal government employees will give a testimonial dinner Friday night of next week as a mark of gratitude to Congressman Robert Ramspeck for his battles as chairman of the house civil service committee in their behalf and for his sponsorship of the Ramspeck bill which restored their annual and sick leave.

The dinner will be sponsored by Atlanta Lodge No. 81, of the American Federation of Government Employees, which is affiliated with the American Federation of Labor, Friends of the congressman, who are not members of the federation, have been invited to join in the affair, which will be held in the Ansley hotel civic room at 7:30 o'clock.

Speakers will include Wylie West, Detroit postmaster; George Goetz, southern representative of the American Federation of Labor, and the congressman.

Members of the federation who are planning the dinner are Isadore Left, of the United States attorney's office, who is chairman of the entertainment committee; C. W. Sebring, of the Internal Revenue Bureau, who is president of the local branch of the federation; C. L. Edwards, Harold E. Smith and J. B. Stanley.

DEMOCRATIC GROUP MEETS NEXT WEEK

Fulton Executive Committee Will Convene for Reply on Funds Request.

A meeting of the Fulton county democratic executive committee will be held Thursday, July 23, at the courthouse, it was announced yesterday by Hewitt W. Chambers, committee secretary.

He said the meeting is to receive a reply from the state executive committee on the request of the county for \$2,500 to aid in holding the democratic primary September 9. Though Hugh Howell, secretary of the state body, is said to have told county executives that fees from Fulton candidates will be turned back to the county, the state committee has not indicated in any way that it intends to reply to Fulton's request.

By using the surplus money received from county candidates in the spring primary, Chambers said the committee will be able to finance the primary this fall.

A. J. Hartley, committee member, said yesterday he will introduce a motion at the meeting to restrict the borrowing power of the committee, so that no money can be borrowed from banks.

Other committee members, however, said it will not be necessary to negotiate any loans.

ROOSEVELT YACHT IN ROUGH WATERS

President Unexpectedly Changes Course Off New Brunswick.

ABOARD SCHOONER LIBERTY OFF THE MAINE COAST, July 16. (AP)—President Roosevelt was sailing toward Nova Scotia through rough seas tonight after his vacation yacht, the *Sewanna*, unexpectedly changed its course to the east off Petit Manan island, near New Brunswick.

The *Sewanna* was following a 70-mile course from the Bay of Fundy to a point estimated to be somewhere between Yarmouth and Cape Saint Mary. Observers estimated 10 hours would be required for the trip for the *Sewanna*, the Potomac the official presidential yacht, and the navy boat Hopkins.

CLOSE FIGHT SEEN BY EUGENE MEYER

Publisher Visits London, Says Kansan's Progress Is Great.

TOPEKA, Kas., July 16. (AP)—Eugene Meyer, Washington publisher and governor of the Federal Reserve Board under President Hoover, said today after conferring with Governor Alf M. Landon that "a very close fight" is in prospect in the presidential campaign.

Meyer told newsmen, after lunching with the republican nominee, "the outlook at present is not for an overwhelming majority for either candidate."

"As the campaign progresses, that outlook may change. Students of form would note that Governor Landon's record for making a lot of progress during a campaign. His pre-convention progress was amazing. Students of form are inclined to draw conclusions, but I don't know much about the races," Meyer added with a smile. "Will you support Landon?" Meyer asked.

"I haven't said that I would," he replied. "I'm very much interested in him. Having served under Presidents Wilson, Harding, Coolidge, Hoover, and two months under President Roosevelt, naturally I am particularly interested in presidents and possible presidents. Governor Landon, of course, is a possible president."

HOFFMAN MAY TESTIFY IN WENDEL KIDNAPING

NEWARK, N. J., July 16. (AP)—Governor Harold G. Hoffman said today that he would be "very glad" to testify in the Wendel kidnaping case as aftermath of the Lindbergh baby murder proceeded on four fronts.

An official steering committee of the federal grand jury in Newark planned to map its course tomorrow in connection with Paul H. Wendel's story that he was abducted and forced to confess the kidnaping of the Lindbergh baby more than four years ago. It was before this jury that Hoffman expressed his willingness to appear.

Anna Hauptmann, widow of the man executed for the crime, meanwhile pressed her investigation in an effort to clear Bruno Hauptmann's name. She went to Trenton yesterday with a detective, the investigator conferring with the Governor.

'Bug' Dream Comes True, But 'Dope' Book All Wet

A negro woman "bug" player yesterday learned to cover the dreams at their face value instead of seeking an interpretation.

Betty Brooks, 25, of 350 Hills avenue, went to bed Wednesday night and dreamed she was arrested for playing the "bug." When she awakened yesterday morning she looked in her number lottery dream book for an interpretation of the dream.

The little book said such a dream meant to play heavy money on No. 208.

She did. Early yesterday afternoon Detective John Crankshaw and J. B. King stopped her on Elm street, found a number of "bug" tickets on her, looked her up, 208 failed to hit. Her dream itself came true but the interpretation was all wet, so Betty says she will throw her dream book away and hope she doesn't have any nightmares.

DARDANELLES TREATY AWAITS SIGNATURES

Japanese Delegation Has Yet To Receive Instructions on Compromise.

MONTREUX, Switzerland, July 16. (AP)—The Dardanelles conference, completing first reading of a compromise straits convention, decided tonight to hold a ceremony of signature Monday.

The only difficulty left unsolved was the fact the Japanese delegation had not yet received instructions as to whether Tokyo approved a Russo-British compromise on a wartime regime for the straits.

Under the compromise, the Dardanelles and the Black sea are closed to belligerents when Turkey is neutral in wartime, except for fleets acting for the League of Nations against an aggressor, or under a regional pact to which Turkey is a party.

The convention text disclosed the Russians were victorious over the British on the centuries-old British demand that the straits be kept open to wartime belligerents.

Russia won in its attempt to keep the Black sea from becoming a theater of war unless the entry of warships is authorized by the League's system of collective security.

Under the convention Turkey gets the right to fortify the Dardanelles zone, demilitarized by the Treaty of Lausanne as a result of Turkey fighting on the side of the Central Powers during the war.

Turkey, today, also succeeded in securing abolition of international straits commission, a body created by the treaty, having proved to the delegates that such a commission would act against her national dignity and sovereignty.

Another article adopted by the conference leaves the treaty open for the signature of Italy, which refused to attend the conference.

60,000 ARE IDLE IN MEXICO STRIKE

3,000 Electric Power Workers Detain Business.

MEXICO CITY, July 16. (AP)—A strike of 3,000 electric power company employees tonight held an estimated 60,000 workers idle in the heart of Mexico.

Vicente Ombardo Toledano, secretary general of the Mexican Confederation of Workers, said approximately 4,000 factories and shops were paralyzed.

At the same time it was calculated unofficially a half-million residences were without lights and 100,000 housewives were facing cold electric stoves.

Lombardo said the confederation's executive committee was meeting tonight to map a "program of moral and economic support of the strikers."

Minor profiteering in candles, kerosene and lamps was reported in the capital. Omnibuses, always overcrowded, were spilling over as a result of a stoppage of street cars.

While water plants were included in the list of places granted emergency services by the strikers, many houses having individual electric pumps were threatened with water shortage.

Radio stations were silent, although dial telephones continued to operate with independent supplies.

C. N. WALKER QUALIFIES FOR COMMITTEE POST

Charles N. Walker, member of the city democratic executive committee from the present thirteenth ward, yesterday announced and qualified for the same position from the newly created sixth ward, composed of the present ninth and thirteenth wards.

Walker has been a familiar figure in civic and political circles for many years. He served as chairman of the committee of the Chamber of Commerce, which organized the Junior Chamber of Commerce. He has been actively engaged in Boy Scout work for 16 years, and is a member of the advisory board of the Salvation Army for the Atlanta district. He is a member of the board of directors of the Atlanta Masonic Club, president of the National League of Masonic Clubs for the Georgia district and is a deacon in the First Christian church.

He owns and operates a roofing establishment.

CHILDREN ARE USED AS LOTTERY RUNNERS

Fleming Willis, 29-year-old negro, of a street address, was yesterday arrested on charges of using negro children, between 5 and 6 years old as his "bug runners" when caught yesterday afternoon, arresting officers reported.

The officers said the negro was using the children to collect nickels and dimes for lottery tickets about the neighborhood. He was arrested on charges of disorderly conduct and lottery.

OIL CONCERN TO BUILD EIGHT OCEAN TANKERS

NEW YORK, July 16. (AP)—The Standard Oil Company of New Jersey announced today it is ordering the immediate construction of eight oil tankers at a cost of more than \$13,000,000.

The contracts, signed today, the company said, comprise the largest ship building order ever given by a private concern in the United States. Construction of the eight vessels will require more than 7,000,000 man-hours of labor, including the work required in fabricating the materials with that of the final assembly, the company said.

ARMY ORDERS

WASHINGTON, July 16.—Army orders: Colonel John B. Beards, Jr. corps, to Hot Springs national park, Arkansas. Lieutenant Colonel Jerry P. Bull, dental corps, to army medical center. Lieutenant Colonel Rufus S. Bratten, infantry, to Washington. Captain Charles S. Mudgett, medical corps, to Washington. Captain Charles Cavell Jr., quartermaster corps, to Philadelphia.

Warning to Stock Sharppers Seen In 24 Indictments at Gainesville

Indictment of 24 men for participation in a nation-wide stock swindle was a warning to "persons who might otherwise believe they can get away with selling crooked securities," said United States Attorney Lawrence S. Camp yesterday.

"The government will not stand for it," said Camp. "We are ready to go into court now to prosecute these men and Atlanta, during the fall term of court, will be the scene of one of the most important stock brokerage cleanups that has been launched in the country."

Camp has returned from Gainesville, where the indictments were returned. With him was M. Neil Andrews, who will assist him in the prosecution of the case this fall.

Camp said the evidence these men operated a chain store—bucket shop—wiped out—securities business all over the country under the same crowd with the same employees."

Camp said evidence in his possession showed investors in the five corporations indicted had lost between \$2,500,000 to \$5,000,000 through the group's operations.

The case was referred to Camp, who is district attorney for the northern district of Georgia, by the attorney general's office at Washington. He said most of the defendants lived at Chicago, where Frank Berger, Henry Bernstein and Joseph Mendelson were arrested late yesterday.

"They are picking them up very fast," Camp said.

REMOVAL OF GENIS TO BE SOUGHT TODAY

NEW YORK, July 16. (AP)—Removal proceedings against Samuel

Genis, indicted with 20 other persons and five corporations at Gainesville, Ga., in a stock-selling scheme, will be held here tomorrow.

Genis was arrested in Brooklyn Tuesday and was released in \$5,000 bail.

Albert Trause, Far Rockaway, L. I., is held in \$1,500 bond for a hearing July 30.

TWO ATLANTA GIRLS ARE SOUGHT IN MACON

Atlanta officers yesterday notified Macon police to look out for two Atlanta girls, who were last seen Wednesday morning headed toward Macon.

The girls, Vivian Holmes, 15, of 354 Woodward avenue, S. E., and Lorena Medley, 16, of 22 Boulevard avenue, S. E., left home Monday, G. M. Medley, a mill worker, Lorena's father, received a telegram from a sister in Macon Wednesday.

Vivian Holmes, porting a negro had seen the girls walking along Route 22 toward Macon at 7 o'clock Wednesday morning.

Vivian is 15 and has gray eyes, light brown hair and weighs about 105. She wore a white skirt, red blouse, white oxford and white socks.

Lorena is 16; has dark brown hair, brown eyes, weighs 175 and is 5 feet 2 inches. She was wearing a yellow dress trimmed with brown, white oxford and white socks when she left home.

Warning to Stock Sharppers Seen In 24 Indictments at Gainesville

Indictment of 24 men for participation in a nation-wide stock swindle was a warning to "persons who might otherwise believe they can get away with selling crooked securities," said United States Attorney Lawrence S. Camp yesterday.

"The government will not stand for it," said Camp. "We are ready to go into court now to prosecute these men and Atlanta, during the fall term of court, will be the scene of one of the most important stock brokerage cleanups that has been launched in the country."

Camp has returned from Gainesville, where the indictments were returned. With him was M. Neil Andrews, who will assist him in the prosecution of the case this fall.

Camp said the evidence these men operated a chain store—bucket shop—wiped out—securities business all over the country under the same crowd with the same employees."

Camp said evidence in his possession showed investors in the five corporations indicted had lost between \$2,500,000 to \$5,000,000 through the group's operations.

The case was referred to Camp, who is district attorney for the northern district of Georgia, by the attorney general's office at Washington. He said most of the defendants lived at Chicago, where Frank Berger, Henry Bernstein and Joseph Mendelson were arrested late yesterday.

"They are picking them up very fast," Camp said.

REMOVAL OF GENIS TO BE SOUGHT TODAY

NEW YORK, July 16. (AP)—Removal proceedings against Samuel

Genis, indicted with 20 other persons and five corporations at Gainesville, Ga., in a stock-selling scheme, will be held here tomorrow.

Genis was arrested in Brooklyn Tuesday and was released in \$5,000 bail.

Albert Trause, Far Rockaway, L. I., is held in \$1,500 bond for a hearing July 30.

TWO ATLANTA GIRLS ARE SOUGHT IN MACON

Atlanta officers yesterday notified Macon police to look out for two Atlanta girls, who were last seen Wednesday morning headed toward Macon.

The girls, Vivian Holmes, 15, of 354 Woodward avenue, S. E., and Lorena Medley, 16, of 22 Boulevard avenue, S. E., left home Monday, G. M. Medley, a mill worker, Lorena's father, received a telegram from a sister in Macon Wednesday.

Vivian Holmes, porting a negro had seen the girls walking along Route 22 toward Macon at 7 o'clock Wednesday morning.

DROUTH AID FUNDS READY FOR GEORGIA

RA Accepting Applications on \$125,000 Allocated Georgia.

MONTGOMERY, Ala., July 16. (AP)—E. S. Morgan, assistant regional director for the Resettlement Administration, today set in motion machinery for disbursing drouth grants to stricken farmers in Alabama, Georgia and South Carolina.

Morgan, in charge of rural rehabilitation, wired aids in the three states to begin accepting applications for grants immediately. He said the money would go for "providing a subsistence—necessities of life—for from one to three months, depending upon the individual case."

Dr. Rexford Tugwell, national chief of the Resettlement Administration, allocated \$75,000 for Alabama, \$80,000 for South Carolina and \$125,000 for Georgia to be used in assisting farmers whose crops were wiped out by drouth. The money does not have to be repaid.

Morgan explained that any destitute rural farmers, whether RA clients or not, would be eligible for aid provided they had exhausted all credit.

WELL CATCHES FIRE IN OKLAHOMA CITY

OKLAHOMA CITY, July 16. (AP)—A spectacular fire at the Anderson-Prichard No. 1 ball oil well, which grazed for 30 minutes in a thickly populated residential area here, was extinguished this afternoon.

A near-by residence was badly damaged.

All available fire fighting equipment in the area was brought into play, and streams of water were shot 85 feet into the air as the flames roared up over the 112-foot derrick.

Warning to Stock Sharppers Seen In 24 Indictments at Gainesville

Indictment of 24 men for participation in a nation-wide stock swindle was a warning to "persons who might otherwise believe they can get away with selling crooked securities," said United States Attorney Lawrence S. Camp yesterday.

"The government will not stand for it," said Camp. "We are ready to go into court now to prosecute these men and Atlanta, during the fall term of court, will be the scene of one of the most important stock brokerage cleanups that has been launched in the country."

Camp has returned from Gainesville, where the indictments were returned. With him was M. Neil Andrews, who will assist him in the prosecution of the case this fall.
